Course Overview:	The Graduate Certificate in Palliative Care will appeal to a range of health professionals and aims to be the industry standard for working in palliative care. The course is primarily delivered face to face, complemented by online resources and activities. The Graduate Certificate in Palliative Care consists of four 12.5 credit point University of Melbourne accredited subjects, and is delivered by a range of experts in their field, who may be drawn from multiple institutions around Victoria as appropriate. Course content will explore the core concepts of palliative care including; pain and symptom management, the interface between aged care and palliative care, communication skills, non malignant diseases, psychosocial concepts, family carers, paediatric palliative care and bereavement care.																	
Learning Outcomes:	Beyond the core curriculum of the Specialist Certificate, the Graduate Certificate will extend health professional competencies across a greater range of clinical areas. Students who complete the Graduate Certificate in Palliative Care will have increased knowledge, skills and competence in areas of bereavement care, adult and paediatric palliative care as well as a sound foundation in the core principles of palliative care.																	
Course Structure & Available Subjects:	1 NURS90046 Fundamentals of Palliative Care (12.5 point subject) 2 NURS90047 Critical inquiry in Adult Palliative care (12.5 point subject) AND 3 NURS90065 Paediatric Palliative Care (12.5 point subject) AND 4 NURS90073 Contemporary Approaches to Bereavement (12.5 point subject) All subjects are compulsory to achieve the Graduate Certificate in Palliative Care.
