

LAWS70452 Human Rights and Climate Change

Credit Points:	12.50
Level:	7 (Graduate/Postgraduate)
Dates & Locations:	2014, Parkville This subject commences in the following study period/s: July, Parkville - Taught on campus. Teaching dates are 9 July - 15 July.
Time Commitment:	Contact Hours: The total class time is between 24 and 26 hours. Total Time Commitment: Not available
Prerequisites:	None
Corequisites:	None
Recommended Background Knowledge:	Applicants without legal qualifications should note that subjects are offered in the discipline of law at an advanced graduate level. While every effort will be made to meet the needs of students trained in other fields, concessions will not be made in the general level of instruction or assessment. Most subjects assume the knowledge usually acquired in a degree in law (LLB, JD or equivalent). Applicants should note that admission to some subjects in the Melbourne Law Masters will be dependent upon the individual applicant's educational background and professional experience.
Non Allowed Subjects:	None
Core Participation Requirements:	The Melbourne Law Masters welcomes applications from students with disabilities. The inherent academic requirements for study in the Melbourne Law Masters are: The ability to attend a minimum of 75% of classes and actively engage in the analysis and critique of complex materials and debate; The ability to read, analyse and comprehend complex written legal materials and complex interdisciplinary materials; The ability to clearly and independently communicate in writing a knowledge and application of legal principles and interdisciplinary materials and to critically evaluate these; The ability to clearly and independently communicate orally a knowledge and application of legal principles and interdisciplinary materials and critically evaluate these; The ability to work independently and as a part of a group; The ability to present orally and in writing legal analysis to a professional standard. Students who feel their disability will inhibit them from meeting these inherent academic requirements are encouraged to contact the Disability Liaison Unit: www.services.unimelb.edu.au/disability/
Contact:	For more information, contact the Melbourne Law Masters office. Email: law-masters@unimelb.edu.au (mailto:law-masters@unimelb.edu.au) Phone: +61 3 8344 6190 Website: www.law.unimelb.edu.au/masters (http://www.law.unimelb.edu.au/masters)
Subject Overview:	This subject will provide a state-of-the-art, up-to-date overview of the phenomenon of climate change and how it affects the enjoyment of human rights. While all human rights issues will be addressed in the subject, an emphasis will be placed on climate displacement, an understanding of the dynamics of climate displacement, the countries that are now and will in future be most heavily affected and the legal and policy measures that will be required to ensure that all climate-displaced persons are afforded rights-based and viable solutions to their displacement. By approaching this vexing issue in this manner, the subject will provide students with an in-depth understanding of the legal issues involved, how they can be invoked and where work is under way today to protect human rights in the era of climate change in which we all now live. There will be an emphasis on several of the most affected countries, including Bangladesh, Kiribati, Maldives, Papua New Guinea, Solomon Islands and Tuvalu. Principal topics will include: <ul style="list-style-type: none"> # Climate change and human rights: Theory, perspectives and predictions # The reality of the human rights impacts of climate change # International law and climate change # Housing, Land and Property rights dimensions of climate displacement

	<ul style="list-style-type: none"> # Climate change solutions in practice: Protecting the rights of communities threatened by climate change; role-play classroom exercises on resolving climate displacement # Human rights mechanisms for addressing climate displacement # Land acquisition as a primary solution to climate displacement # Classroom debate on a new convention on human rights and climate change: good or bad idea?
Learning Outcomes:	<p>A student who has successfully completed this subject will:</p> <ul style="list-style-type: none"> # Understand the phenomenon of climate change, its likely scale, the countries most heavily affected, how it manifests and the role of international human rights law in finding solutions to resolve climate displacement; # Understand the problems and the potential of international law, in particular human rights law, with respect to addressing climate displacement and the human rights of those affected; # Understand the particular human rights challenges facing the most heavily affected countries, including Bangladesh, Kiribati, Maldives, Papua New Guinea, Solomon Islands, Tuvalu and how these may best be addressed; and # Understand the key actors in the area of climate displacement including human rights treaty bodies, UN agencies, national governments, civil society actors and affected communities. # The Subject will provide students with a broad understanding of the complex relationships between climate change, displacement and the application of human rights and other laws in the search for solutions.
Assessment:	Take-home examination (100%) (29 August - 1 September 2014) OR 10,000 word research paper (100%) (Due 22 October 2014) on a topic approved by the subject coordinator
Prescribed Texts:	Core subject materials will be provided free of charge to all students. Some subjects require further texts to be purchased. Details regarding any prescribed texts will be provided prior to the commencement of the subject.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
