Course Overview:	The Postgraduate Certificate in Primary Care Nursing is a tailored course for nurses working in a primary care setting that delivers comprehensive and evidence-based education in chronic disease, prevention, women's health, mental health or youth health. Commonwealth government policy priorities in primary health care include an enhanced role for the practice nurse and this has been recognised in the course subjects. This course is delivered by flexible education (distance, online and face-to face).																								
Learning Outcomes:	<p>On completion students should be able to:</p> <ul style="list-style-type: none"> # Apply an evidence based approach to screening, health promotion and an advanced clinical area of their choice # Consult with patients in primary care using a preventive approach # Identify the elements of systematic chronic disease management 																								
Course Structure & Available Subjects:	The Postgraduate Certificate in Primary Care Nursing is a 50-credit-point, part-time, coursework program comprising of two (2) core subjects and one (1) elective subject.
