VETS30025 Veterinary Clinical Sciences

Credit Points:	6.25
Level:	3 (Undergraduate)
Dates & Locations:	This subject is not offered in 2014.
Time Commitment:	Contact Hours: Lectures: 36 hours. Workshops: 8 hours. Total Time Commitment: 90 hours
Prerequisites:	Successful completion of all subjects in Year 2 of Bachelor of Veterinary Science course.
Corequisites:	

Subject	Study Period Commencement:	Credit Points:
VETS30024 Veterinary Paraclinical Sciences	Year Long	12.50

Recommended Background Knowledge:	Years 1 and 2 (Semesters 1-4) of the BVSc course
Non Allowed Subjects:	None
Core Participation Requirements:	Students should be familiar with the Faculty's Academic Requirements Statementhttp://www.vet.unimelb.edu.au/docs/CoreParticipationReqs.pdf
Contact:	**Email: adfisher@unimelb.edu.au (mailto:adfisher@unimelb.edu.au)**
Subject Overview:	This subject covers: # Scientific method and systems analysis. # Veterinary epidemiology. # Introduction to diagnostic methods. # Animal breeding and genetic improvement. # Principles of: - Surgery in diagnosis; - Radiography.
Learning Outcomes:	Students completing this subject should: # understand the scientific method; # be able to critically read scientific papers; # understand the multi-factor nature of disease; # understand the concepts of epidemiology; # be aware of factors which influence patterns of disease; # be familiar with the techniques of data acquisition and analysis and the uses and limitations of statistical information; # be able to undertake epidemiological investigations of animal disease outbreaks; # be able to design a simple breeding program for animals; # understand the principles of selection for genetic improvement in various animal production systems; # be able to advise on the use of reproductive technologies to improve the rate of genetic gain; # understand the principles and applications of surgery as a diagnostic tool, radiography and ultrasonography; and # consolidate their knowledge of veterinary public health, especially as it relates to food production systems and to zoonotic diseases and emerging diseases.
Assessment:	One 1-hour written paper at the end of Semester 1 (45%) One 1-hour written paper after Semester 2 intra-semester break (45%) Assessment of assignments/exercises during semesters (10%) Students are required to pass the subject on aggregate marks.

Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
