

Public Health

Year and Campus:	2015
Coordinator:	Dr Melanie Davern (mdavern@unimelb.edu.au)Melbourne School of Population and Global Health
Contact:	<p>Office for Environmental Programs Ground Floor, Walter Boas Building (building 163)</p> <p><i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au)</p>
Overview:	<p>Public Health is offered as a major field of study in the Master of Environment degree.</p> <p>The environments in which we live immediately impact on our health. The Public Health major is designed to ensure the creation and maintenance of environments that promote good public health. By collaborating with other disciplines and sectors, we work to identify and manage environmental health problems.</p> <p>Study in this field will provide you with the tools used in environmental health practice, and by public health practitioners. These include surveillance, monitoring, observation, analysis, and selected techniques in biostatistics, epidemiology and health economics.</p> <p>Other skills we develop are more specific to environmental health or environmental studies, such as environmental, social and health impact assessment and qualitative and quantitative risk analysis.</p> <p>This major is a specialist companion program to the Master of Public Health which is offered at the University of Melbourne and at many other institutions. Students benefit from Melbourne's strong health sciences programs.</p> <p>By studying in this area, you might expect to find employment in the health industry; government agencies, within the environmental and health sectors; consulting companies, and development agencies.</p>
Learning Outcomes:	<p>Students who complete the Master of Environment will have:</p> <ul style="list-style-type: none"> # Knowledge to undertake professional practice in environment or sustainability, including: # Skills for collaborative and creative problem solving in environmental practice, including # Demonstrated capacity to: <p>Upon successful completion of the Public Health specialisation, students will be able to:</p> <ul style="list-style-type: none"> # Analyse, assess and monitor the impacts of environments on public health; # Propose strategies for creating and maintaining environments that promote good public health; and <p>Collaborate with professionals across disciplines and sectors to identify and manage environmental health problems.</p>
Structure & Available Subjects:	<p>Students will be required to complete the two core subjects, plus two compulsory specialisation subjects. Students must also take at least 25 points of subjects from the compulsory capstone subjects – these subjects enable students to complete an independent project related to professional practices in environment and public health. Students must also undertake electives to make up the balance of the award. The selection of electives is made in consultation with the Public Health major coordinator.</p> <p>A full list of subjects available within this specialisation can be found at http://environment.unimelb.edu.au/courses/streams/public_health (http://environment.unimelb.edu.au/courses/streams/public_health)</p>
Subject Options:	<p>Core Subjects</p> <p>Students are required to complete the subjects:</p>

Subject	Study Period Commencement:	Credit Points:
MULT90005 Interdisciplinarity and the Environment	Semester 2	12.50
MULT90004 Sustainability Governance and Leadership	March, July	12.50

Compulsory Specialisation

Students are required to complete the following two subjects:

Subject	Study Period Commencement:	Credit Points:
POPH90014 Epidemiology 1	Semester 1	12.50
POPH90217 Foundations of Public Health	February	12.50

Compulsory Capstone Experience

Students must complete at least 25 points from the following compulsory capstone subjects - please note that if you select either a 25 or 50 point subject that spreads across two semesters you must enrol into the subject in both semesters (your student centre will be able to assist with this).

Subject	Study Period Commencement:	Credit Points:
ENST90006 Environmental Research Review (12.5)	Semester 1, Semester 2	12.50
ENST90007 Environmental Research Project (25)	Semester 1, Semester 2	25
ENST90024 Environmental Research Project - 25 Long	Semester 1, Semester 2	12.50
ENST90016 Environmental Research Project (50)	Semester 1, Semester 2	50
ENST70001 Environmental Research Proj (50 Long)	Semester 1, Semester 2	25
ENST90025 Environmental Industry Research (25)	Semester 1, Semester 2	25
ENST90026 Environmental Industry Research: 25 Long	Semester 1, Semester 2	12.50
ENST90020 Environmental Industry Research (50)	Semester 1, Semester 2	50
ENST70002 Environmental Industry Research: 50 Long	Semester 1, Semester 2	25
DEVT90002 Internship in Development	January, Semester 1, Semester 2	12.50
DEVT90008 International Internship in Development	January, Semester 1, Semester 2	25

Elective subjects

plus undertake electives to make up the balance of the award. The recommended list of electives includes:

Subject	Study Period Commencement:	Credit Points:
POPH90013 Biostatistics	Semester 1	12.50
GEOG90021 Conservation and Cultural Environments	Semester 1	12.50
CHEM90007 Environmental Chemistry	Semester 1	12.50
ENST90002 Social Impact Assessment and Evaluation	Semester 2	12.50
EVSC90014 Environmental Risk Assessment	November	12.50

EVSC90015 Environmental Impact Assessment	Semester 1	12.50
LAWS70068 Environmental Law	September	12.50
POPH90020 Health Promotion	February	12.50
POPH90058 Health Program Evaluation 1	Semester 1	12.50
POPH90066 Women and Global Health	September	12.50
POPH90071 Indigenous Health and History	March	12.50
POPH90086 International Child Health	October	12.50
POPH90087 International Adolescent Health	February	12.50
POPH90088 Disability in Developing Countries	September	12.50
POPH90090 Health Program Evaluation 2	Semester 2	12.50
POPH90093 Economic Evaluation 1	Semester 2	12.50
POPH90112 Infectious Disease Epidemiology	Semester 1	12.50
POPH90131 Primary Health Care and Global Health	March, August	12.50
POPH90137 Primary Health Care, Jamkhed, India	January, November	12.50
POPH90144 Linear & Logistic Regression	July	12.50
POPH90145 Survival Analysis & Regression for Rates	September	12.50
POPH90189 Global Health Program Planning & Design	February	12.50
POPH90190 HIV and AIDS:An Evolving Global Response	March	12.50
POPH90191 Practice of Public Health Leadership	September	12.50
POPH90200 Principles of Social Research Design	February	12.50
POPH90201 Community-Based Participatory Research	Semester 1	12.50
POPH90205 Health Inequalities	Semester 2	12.50
POPH90206 Health Policy	March	12.50
POPH90207 Ethics in Public Health	Not offered 2015	12.50
POPH90209 Health Systems	August	12.50
POPH90218 Public Health Leadership and Management	July	12.50
POPH90227 Public Health in Practice	Semester 1	12.50
POPH90229 Health Economics 2	Semester 2	12.50
POPH90230 Environmental Challenges & Global Health	July	12.50
POPH90231 Qualitative Research in Public Health	Semester 2	12.50
POPH90232 Indigenous Health: From Data to Practice	August	12.50
ENST90019 Contemporary Environmental Issues B	Semester 2	12.50
POPH90238 Systems for Global Health	July	12.50
POPH90069 Sexual and Reproductive Health	August	12.50

	FOOD90024 Securing Sufficient and Healthy Food	Semester 1	12.50
	HORT90011 Therapeutic Landscapes	Not offered 2015	12.50
	ABPL90022 Healthy Communities	Semester 2	12.50
	FOOD90026 The Politics of Food	Semester 1	12.50
	FOOD90027 Nutrition Politics and Policy	Semester 2	12.50
	POPH90242 Observational Epidemiology	July	12.50
	POPH90243 Clinical Epidemiology	April	12.50
	POPH90094 Health Economics 1	Semester 1	12.5
