

Mathematics and Statistics

Year and Campus:	2015																									
Coordinator:	Associate Professor Jan de Gier																									
Contact:	Email: jd gier@unimelb.edu.au (mailto:jd gier@unimelb.edu.au)																									
Overview:	<p>Entry Requirements: Prior studies in Mathematics and Statistics including at least two first year and three second or higher level subjects, with at least an H3 (65%) mark for each of the two best second or higher level subjects. If students have completed accelerated subjects then one fewer subject can be deemed appropriate.</p>																									
Learning Outcomes:	<p>The objectives of this diploma are to:</p> <ul style="list-style-type: none"> # further the understanding of Mathematics and Statistics across a wide range of theoretical and practical topics; # encourage the development of abilities to think critically and independently; # provide a pathway for entry into graduate study in Mathematics and Statistics for students whose main undergraduate field of study was not Mathematics and/or Statistics. 																									
Structure & Available Subjects:	<p>The Mathematics and Statistics program consists of eight Coursework subjects only (100 points).</p> <p>Subjects are chosen from three sources.</p> <ol style="list-style-type: none"> 1. Advanced Discipline Subjects available to students enrolled into Master of Science (Mathematics and Statistics). The advanced discipline subjects are clustered into four areas: <ul style="list-style-type: none"> # Applied Mathematics & Mathematical Physics # Discrete Mathematics and Operations Research Specialisation # Pure Mathematics # Statistics & Stochastic Processes. 2. Students may choose MAST90045 Systems Modelling and Simulation. 3. Students may select up to four subjects from latter-year, normally third year, undergraduate Mathematics and Statistics subjects subject to Departmental Program Coordinator approval. 																									
Subject Options:	<p>Subject prerequisites: For stream specific requirements please click here (http://science.unimelb.edu.au/available-stream-requirements%20) .</p> <p>Coursework</p> <p>It is recommended that students take at least three subjects from a single specialisation.</p> <p>-</p> <p>Applied Mathematics and Mathematical Physics Specialisation</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>MAST90064 Advanced Methods: Differential Equations</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>MAST90060 Mathematical Statistical Mechanics</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>MAST90065 Exactly Solvable Models</td> <td>Semester 2</td> <td>12.50</td> </tr> <tr> <td>MAST90011 Modelling: Mathematical Biology</td> <td>Not offered 2015</td> <td>12.50</td> </tr> <tr> <td>MAST90026 Computational Differential Equations</td> <td>Not offered 2015</td> <td>12.50</td> </tr> <tr> <td>MAST90066 Continuum Mechanics and Applications</td> <td>Not offered 2015</td> <td>12.50</td> </tr> <tr> <td>MAST90067 Advanced Methods: Transforms</td> <td>Not offered 2015</td> <td>12.50</td> </tr> </tbody> </table>		Subject	Study Period Commencement:	Credit Points:	MAST90064 Advanced Methods: Differential Equations	Semester 1	12.50	MAST90060 Mathematical Statistical Mechanics	Semester 1	12.50	MAST90065 Exactly Solvable Models	Semester 2	12.50	MAST90011 Modelling: Mathematical Biology	Not offered 2015	12.50	MAST90026 Computational Differential Equations	Not offered 2015	12.50	MAST90066 Continuum Mechanics and Applications	Not offered 2015	12.50	MAST90067 Advanced Methods: Transforms	Not offered 2015	12.50
Subject	Study Period Commencement:	Credit Points:																								
MAST90064 Advanced Methods: Differential Equations	Semester 1	12.50																								
MAST90060 Mathematical Statistical Mechanics	Semester 1	12.50																								
MAST90065 Exactly Solvable Models	Semester 2	12.50																								
MAST90011 Modelling: Mathematical Biology	Not offered 2015	12.50																								
MAST90026 Computational Differential Equations	Not offered 2015	12.50																								
MAST90066 Continuum Mechanics and Applications	Not offered 2015	12.50																								
MAST90067 Advanced Methods: Transforms	Not offered 2015	12.50																								

MAST90069 Introduction to String Theory	Not offered 2015	12.50
---	------------------	-------

Discrete Mathematics and Operations Research Specialisation

Subject	Study Period Commencement:	Credit Points:
MAST90013 Network Optimisation	Semester 2	12.50
MAST90014 Optimisation for Industry	Semester 1	12.50
MAST90030 Advanced Discrete Mathematics	Semester 2	12.50
MAST90031 Enumerative Combinatorics	Semester 1	12.50
MAST90050 Scheduling and Optimisation	Not offered 2015	12.50
MAST90053 Experimental Mathematics	Not offered 2015	12.50

Pure Mathematics Specialisation

Subject	Study Period Commencement:	Credit Points:
MAST90012 Measure Theory	Semester 1	12.50
MAST90017 Representation Theory	Semester 2	12.50
MAST90029 Differential Topology and Geometry	Semester 1	12.50
MAST90056 Riemann Surfaces and Complex Analysis	Semester 2	12.50
MAST90020 Functional Analysis	Not offered 2015	12.50
MAST90023 Algebraic Topology	Not offered 2015	12.50
MAST90025 Commutative and Multilinear Algebra	Not offered 2015	12.50
MAST90068 Groups, Categories & Homological Algebra	Not offered 2015	12.50

Statistics and Stochastic Processes Specialisation

Subject	Study Period Commencement:	Credit Points:
MAST90019 Random Processes	Semester 2	12.50
MAST90059 Stochastic Calculus with Applications	Semester 1	12.50
MAST90080 Advanced Modelling: Case Studies	Semester 2	12.50
MAST90082 Mathematical Statistics	Semester 1	12.50
MAST90083 Computational Statistics and Data Mining	Semester 2	12.50
MAST90085 Multivariate Statistical Techniques	Semester 1	12.50
MAST90027 The Practice of Statistics	Not offered 2015	12.50
MAST90051 Mathematics of Risk	Not offered 2015	12.50
MAST90081 Advanced Probability	Not offered 2015	12.50
MAST90084 Statistical Modelling	Not offered 2015	12.50

-

Students may also choose the following:

	Subject	Study Period Commencement:	Credit Points:
	MAST90045 Systems Modelling and Simulation	Semester 1	12.50
