<b>Subject Overview:</b>	<p>This subject was formerly called Architecture Design Studio 2.</p> <p>The core of the undergraduate design sequence is the development of both design thinking and dexterity with tools. As an extension of 702-239 (ABPL20027) Architecture Design Studio 1: Earth, the focus of this second design subject will be the generation and articulation of design possibilities through a series of studio projects. Linking these investigations will be the theme of water, which may be explored conceptually, metaphorically, structurally, or technologically – e.g. waterproofing, rain screens, hygiene, perspiration, sports centres, hydraulics, humidity, marine or riverine environments, pools.</p>								
<b>Learning Outcomes:</b>	<p>For students to:</p> <ul style="list-style-type: none"> <li># demonstrate an ability to interrogate a brief;</li> <li># demonstrate an ability to generate a variety of design possibilities for a given situation;</li> <li># develop skills in choosing and using appropriate representational media;</li> </ul>								

	<ul style="list-style-type: none"> <li># demonstrate an understanding of relationships between architecture and water through the application of the first three points above;</li> <li># develop an ability to present and justify design proposals.</li> </ul>
<b>Assessment:</b>	A. Sketches and analysis of selected master-architect designs equivalent to 1000 words, due week 4 – 20%B. Students' own designs presented in professional sketches equivalent to 1000 words, due week 9 – 20%C. Students' completed designs presented in standard professional drawings equivalent to 3000 words, due week 12 – 60% Minimum attendance at 10 / 12 tutorials is a hurdle requirement for this subject. Discretion regarding meeting the attendance hurdle may be applied by the subject coordinator for students who have experienced circumstances of disadvantage affecting their ability to attend, provided the subject coordinator is advised in writing as soon as these circumstances arise.
