<b>Subject Overview:</b>	<p>This research honours project develops a student's ability to design and undertake a substantial body of work, to find solutions to a particular industry or discipline issue, and to report on this in written and verbal form. The project topic is developed in close collaboration between student, academic and industry advisers. Project definition is completed shortly after commencement of the semester of enrolment in the subject, and requires approval from the subject coordinator based on input from academic and industry advisors, taking into account the student's preparation through previous selection of elective or stream subjects.</p> <p>Logistic assistance for projects is coordinated on a case-by-case basis.</p> <p>Each student prepares a short oral presentation on their project proposal, which is peer-reviewed, as well as a written proposal (5-8 pages) to be assessed by academic and industry advisers. A more detailed oral presentation is presented on the final results of the project to an audience of FVAS and industry staff.</p> <p>Students will be enrolled in a combination of the research project subjects indicated below to ensure they have completed a total of 75 points for the research project by the end of their course.</p>

	<p>Each of these subjects are available in Semester 1 and Semester 2:</p> <ul style="list-style-type: none"> <li># AGRI40001 Land and Environment Research Project - 25 points;</li> <li># AGRI40002 Land and Environment Research Project - 37.5 points;</li> <li># AGRI40003 Land and Environment Research Project - 50 points.</li> </ul>
