| Coordinator: | Dr Nicole Tse, Ms Susie Collis |
| Contact: | Nicole Tse nicoleat@unimelb.edu.au Susie Collis susanna.collis@unimelb.edu.au |
| Subject Overview: | In this subject students arrange and undertake a placement in a Conservation Department or practice which deals directly in the conservation of materials of their specialisation. They work under the guidance of a senior conservator within the work place. Students carry out a set program of conservation research and/or treatment involving complex decision making and the application of high level skills. During the internship an academic supervisor is available for consultation and advice. |
| Learning Outcomes: | Upon completion of this subject students should: <ul style="list-style-type: none"> # gain an understanding of the environment within which conservation is practiced. # learn analytical, research and report writing skills, and develop negotiation and interpersonal skills. # acquire significant insight into the complexities of conservation decision making and management. |
| Assessment: | A 3000 word reflective essay 60% (due at the end of semester) and a 2000 word report for the host organization 40%, assessed by the host (due at the completion of the placement). Assessment submitted late without an approved extension will be penalised at 2% per day; after five days, no late assessment will be accepted. In-class tasks missed without approval will not be marked. All pieces of written work must be submitted to pass this subject. |
