<b>Subject Overview:</b>	Preparation and realisation of a dance performance/installation/event (s) of 30minutes duration and an accompanying 8,000 word research paper. The student explores the formulation of artistic materials building upon the areas of interest formulated through Projects1 & 2. These are presented and discussed in terms of the broader field of practice, prevailing ideas, values and philosophical discourses. The student will focus on a specific (self-selected) area of interest and fully inform themselves through a closely devised research program. The dialogue between studio practice and other forms of exploration will be sustained. As the partner to the project the paper aims to uncover imaginative and theoretically sound ways to reflect upon the research focus building upon the concepts, skills and frameworks explored through Performance and Research Approaches 1 & 2 with a further refinement and articulation
