Subject Overview:	This subject introduces teacher candidates to a range of physical, personal, social, emotional, cognitive and spiritual perspectives on children's learning and development over the age-range 0-8. Topics will include: Different paradigms and perspectives on development in all domains, but with a particular emphasis on the cognitive, social and emotional domains; the relationship of learning and development and the importance of structured learning to development; conceptions of stages of development, contrasted with the continuity of development and the importance of transitions; developmental differences; observational frameworks; significance of family, friends and teachers; the child as agent; the child's sense identity. Teacher candidates will also be introduced to an integrated set of data on child outcomes across all domains - the Victorian Child and Adolescent Monitoring System (VCAMS).								
Learning Outcomes:	On completion of this subject, teacher candidates will have the knowledge, skills and ability to: # Assess the child's development from a range of perspectives; # Recognise how learning underpins development; # Foster the conditions and relationships that lead to strong development; # Respect the identity of the child; # Respect and cater for variation in the learning and development of individual children.								
Assessment:	Essay 1, 2000 words, due mid-semester, 50% Essay 2, 2000 words, due end semester, 50% Attendance at all classes (tutorial/seminars/practical classes/lectures/labs) is obligatory. Failure to attend 80% of classes will normally result in failure in the subject.								
Prescribed Texts:	Berk, L. (2009) Child Development (2009), 8 th edition, Pearson, Boston.								

Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of this subject, teacher candidates will be able to:</p> <ul style="list-style-type: none">• Observe the development of children within appropriate frameworks• Understand the importance of theoretical perspectives to meaningful observation of phenomena;• Respect the contributions from all those involved in supporting development
