Subject Overview:	This subject will support participants to develop skills in using clinical models to target teaching to the point of student need. The subject will examine contextual influences on students' learning, then move to consider how clinical models may be used to inform teaching. There will be analysis and discussion of exemplars of clinical praxis, together with an analysis of case studies of student learning. Course participants will also use tools to reflect on examples of teaching and consider means of improving teaching, and will study how to integrate a clinical model into day-to-day teaching practice.									
Learning Outcomes:	On completion of this subject, students should be able to: <ul style="list-style-type: none"># Analyse and synthesise diverse sources of data to inform and assess student learning and development.# Identify contextual and other influences on a student's learning;# Utilise inclusive teaching practices that demonstrate an awareness of cultural diversity and its implications for society and education.# Reflect on their own teaching practice and use this reflection as a means of continuous improvement; and# Articulate how to implement a clinical model of teaching in the classroom.									
Assessment:	Contribution to online discussions (equivalent to 1000 words) due across semester, 20% Annotated bibliography (1000 words) due mid-semester, 20% Clinical Praxis Exam (20 minutes of presentation and 10 minutes responding to questions). Equivalent to 3000 words, due end of semester, 60%									
Prescribed Texts:	None									
Breadth Options:	This subject is not available as a breadth subject.									

Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
