The project will be taken over four consecutive semesters and will begin on the first Monday of semester 1 and continue for up to 88 weeks until the end of the fourth semester, minus recreation leave of between 4 and 8 weeks (22 weeks per semester over the four semesters). For how long and at what time within the enrolment the actual period of leave is to be taken needs to be negotiated with a student's supervisor.

The major thesis will be due for submission by the end of the formal examination period of the fourth semester of enrolment if an earlier date is not specified.

Students may enrol in a combination of research project subjects and coursework subjects over their two years of full-time to ensure they have completed a total of 125 points for the research project by the end of their course. Students cannot enrol in the same subject more than once.

# 50 points of the research project is taken in the first year, and the assessment consists of a research proposal(30%) and minor thesis (70%).

# 75 points of the research project is taken in the second year, and the assessment consists of a major thesis (90%); and an oral presentation (10%).
