Subject Overview:	This subject will provide advanced knowledge for echocardiography interpretation in patients with adult congenital, obstetric, and unusual medical conditions.															

	<p>Topics include:</p> <ol style="list-style-type: none"> 1 Transthoracic echocardiography in children 2 Atrial defects 3 Ventricular defects 4 Valvular defects 5 Defects of the great vessels 6 Congenital defects that present in adults 7 Assessment of congenital defects after surgery 8 Case reports - 25 cases
Learning Outcomes:	<p>The completion of the subject, students should:</p> <ol style="list-style-type: none"> 1 Learn about adult congenital heart disease and echocardiography evaluation 2 Understand the management of adult congenital heart disease 3 Understand the effect of pregnancy on the cardiovascular system 4 Learn how pregnancy affect cardiac disease 5 Learn echocardiography features of severe pre-eclampsia 6 Understand the approach of incorporating ultrasound into the assessment of post-delivery cardiovascular emergencies 7 Learn the pathology and echocardiography features of cardiomyopathy 8 Learned the power quality and echocardiography features of cardiac tumours 9 Understand how to differentiate pericardial disease states 10 Learn the cardiac pathology and echocardiography interpretation associated with systemic disease states 11 Interpret 25 case studies.
Assessment:	<p>1. 50% of assessment: one open-book multiple-choice examination of 50 questions which takes 100 minutes, during exam week 2. 20% of assessment: completion of multiple choice questions following each tutorial (10 MCQ takes 20 minutes for each of 10 tutorials (200 minutes total) 3. 30% Case studies. Interpretation of 25 case studies, during semester, assessed by structured questions pertaining to each case (5 MCQ per case). Total time is 250 minutes.</p>
Prescribed Texts:	All course materials will be provided during the course
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<ul style="list-style-type: none"> # Improve critical evaluation skills # Evaluate the safety and practice of ultrasound in clinical practice # Improve problem solving skills # Improve understanding of diagnostic algorithms # Enhance information literacy
