Course Overview:	<p>The MPhil is an internationally recognised masters (by research) degree. It is designed for students to develop advanced skills in carrying out independent and sustained research. The thesis demonstrates a critical application of specialist knowledge and makes an independent contribution to existing scholarship in the area of research.</p> <p>Intake</p> <ul style="list-style-type: none"> # Students may commence the degree at any time during the year between 1st February and 15 December. # Commencement is subject to prior arrangement with their nominated supervisor and the MDHS Student Centre. (Scholarships have separate rules and students should seek approval from Melbourne Scholarships to vary their scholarship commencement). # Please check with the relevant academic unit prior to making any arrangements for enrolment or travel. <p>Policies and Procedures</p> <p>A range of University policies and procedures apply to students enrolled in Higher Degrees by Research.</p> <ul style="list-style-type: none"> # Candidature (https://policy.unimelb.edu.au/MPF1280) (enrolment) # Examinations (https://policy.unimelb.edu.au/MPF1207) # Courses (https://policy.unimelb.edu.au/MPF1019) and course structures (https://policy.unimelb.edu.au/MPF1208) # Academic progress (https://policy.unimelb.edu.au/MPF1264) # Preparation of the thesis (https://policy.unimelb.edu.au/MPF1263) # Selection and admission (https://policy.unimelb.edu.au/MPF1284) # Management of research data and records (https://policy.unimelb.edu.au/MPF1242)
Learning Outcomes:	<p>On completion of the course students should be able to:</p> <ul style="list-style-type: none"> # demonstrate advanced learning in research skills and mastery of appropriate techniques, such as the use of archival or primary evidence, analysis of data, judgement of conflicting evidence. # demonstrate specialist knowledge in the area of their research. # present the results of their research in publishable quality or work towards incorporating their findings in further research. # demonstrate an understanding of, and commitment to, research ethics or code of practice.

<p>Course Structure & Available Subjects:</p>	<ul style="list-style-type: none"> # Candidates enrol in a year-long thesis subject for the duration of the degree. # A candidate will have appropriately experienced supervisor/s and an Advisory Committee who in consultation with the candidate, arranges a course of supervised research designed to suit the individual requirements and interests of the candidate. # A candidate may be required to supplement their research program by attendance at, or enrolment in, additional subjects if considered necessary by the supervisor(s). # Academic progress is reviewed regularly throughout the degree. # All candidates for the degree will be examined on the basis of their thesis which is examined externally. The thesis should normally be between 30,000 and 40,000 words in length excluding tables, illustrations and bibliography. # Candidates should refer to the University policy library (https://policy.unimelb.edu.au/search?q=graduate+research) for further information regarding candidature, academic progress, ethics, thesis preparation and examination. <p>Attendance:</p> <ul style="list-style-type: none"> # All candidates are required to complete a minimum of 6 months full-time research at the University in order to benefit from planning, conducting and writing up their research within a University community and environment. # Normally the entire degree is undertaken at the University. # To be eligible to submit a thesis students must be enrolled in their course for the minimum period of 6 months full-time equivalent. # All candidates are required to attend departmental seminars over the period of their candidature.
<p>Entry Requirements:</p>	<ol style="list-style-type: none"> 1. In order to be considered for entry, applicants must have completed: <ul style="list-style-type: none"> # a four-year bachelor degree in a relevant discipline which includes a substantial research component equivalent to at least 25% of one year of full-time study and have achieved a minimum weighted average of 80% or (University of Melbourne) equivalent); <p>or</p> <ul style="list-style-type: none"> # a masters degree in a relevant discipline which includes a substantial research component equivalent to at least 25% of one year of full-time study and achieved a minimum weighted average of 80% or (University of Melbourne equivalent); <p>or</p> <ul style="list-style-type: none"> # a qualification and professional experience considered to be equivalent; and # submit a research proposal; and # provide referee reports (except for applicants who have graduated from the University of Melbourne within the last 5 years); and # obtain the endorsement of a prospective supervisor. <p>Meeting these requirements does not guarantee selection.</p> 2. In selecting applicants, the selection committee will consider applicants': <ul style="list-style-type: none"> # prior academic performance and, if relevant, # professional qualifications; and # performance at interview; and # understanding of the research question to be explored; and # motivation and capacity to complete the course in a timely manner; and # relevant prior research and/or professional experience; and # referee reports. 3. The selection committee may seek further information to clarify any aspect of an application in accordance with the Selection and Admission into Graduate Research Courses Policy. 4. The minimum English language requirements for this course are Band 7 (http://futurestudents.unimelb.edu.au/admissions/entry-requirements/language-requirements)
<p>Core Participation Requirements:</p>	<p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards of Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on</p>

	<p>the disability support scheme can be found at the Disability Liaison Unit Website: http://www.services.unimelb.edu.au/disability/ All candidates are required to complete the equivalent of at least six months full-time (12 months part-time) advanced study and research at the University unless studying at an outside institution approved by the Research Higher Degrees Committee (RHDC). The RHDC will not approve entirely distance supervision or entirely on-line supervision for research higher degree students. Throughout their candidature candidates are expected to attend the University in order to benefit from planning, conducting and writing up their research within a University community and environment. The residency requirement is deemed especially important during the first six months of candidature. During this time the student is expected to interact on a regular basis with the supervisor, the department (including staff and other research students) and the University, so as: to build the skills and knowledge necessary to carry out the proposed research program to acquire an understanding of the standards and requirements for a research higher degree awarded by the University to make use of support programs and facilities provided by the University throughout candidature.</p>
<p>Graduate Attributes:</p>	<p>Masters degrees at the University of Melbourne seek to develop graduates who have a capacity for defining and managing a research project characterised by originality and independence. Their training equips them for more sustained and original work at the doctoral level or for applied research positions in a wide variety of contexts. The University expects its research masters graduates to have the following attributes: an ability to initiate research projects and to formulate viable research questions. a demonstrated capacity to design, conduct and report independent and original research on a closely-defined project. an ability to manage time to maximise the quality of research. an understanding of the major contours of international research in the research area. a capacity for critical evaluation of relevant scholarly literature. well-developed and flexible problem-solving abilities appropriate to the discipline. the ability to analyse research data within a changing disciplinary environment. the capacity to communicate effectively the results of research and scholarship by oral and written communication. an understanding of and facility with scholarly conventions in the discipline area. a profound respect for truth and intellectual integrity, and for the ethics of research and scholarship. a capacity to cooperate with other researchers. an ability to manage information effectively, including the application of computer systems and software where appropriate to the student's field of study.</p>
