

ORAL40001 Oral Health Research Project 4A

Credit Points:	25									
Level:	4 (Undergraduate)									
Dates & Locations:	2015, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus. Semester 2, Parkville - Taught on campus.									
Time Commitment:	Contact Hours: Approximately 30 hours per week Total Time Commitment: Not available									
Prerequisites:	None									
Corequisites:	<p>This subject forms 25 points of a 75 point research project required for completion of the BOH Hons degree and as such, is not a stand-alone subject. It must be undertaken in conjunction with Oral Health Research Project 4B (50 credit points) to enable completion of the degree.</p> <p>The two subjects listed below are corequisites in a full-time load:</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>BIOM40001 Introduction To Biomedical Research</td> <td>February</td> <td>12.50</td> </tr> <tr> <td>DENT40003 Advances in Oral Health Research</td> <td>Semester 1, Semester 2</td> <td>12.50</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	BIOM40001 Introduction To Biomedical Research	February	12.50	DENT40003 Advances in Oral Health Research	Semester 1, Semester 2	12.50
Subject	Study Period Commencement:	Credit Points:								
BIOM40001 Introduction To Biomedical Research	February	12.50								
DENT40003 Advances in Oral Health Research	Semester 1, Semester 2	12.50								
Recommended Background Knowledge:	Bachelor of Oral Health: ORAL30001 Oral Health Therapy Research or Equivalent									
Non Allowed Subjects:	None									
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>									
Coordinator:	Assoc Prof Julie Satur									
Contact:	Brenda Jackson Administrative Officer Teaching & Learning & Section Support jacksonb@unimelb.edu.au (mailto:jacksonb@unimelb.edu.au)									
Subject Overview:	<p>This subject offers students the opportunity to gain an understanding and practical experience in oral health research in their own individually designed and supervised research project. Students are required to complete a research project and to produce a written thesis under the guidance of their supervisor(s).</p> <p>Research projects will be offered in a wide variety of oral health research areas allowing students to choose a topic that interests them.</p> <p>Students will be enrolled in a combination of research project subjects (4A and 4B) to ensure they complete a 75 point research project by the end of their course.</p>									

Learning Outcomes:	<p>In undertaking a research project and writing up a thesis of approximately 10,000 words and completing two oral presentations, the student will have demonstrated the ability to:</p> <ul style="list-style-type: none"> # take joint responsibility for their learning and to accept responsibility for moving towards intellectual independence; # read and evaluate the literature and determine that a problem can be addressed; # state the problem and develop study questions or hypothesis; # design and conduct this study; # develop methods, collect data and analyse the results using the appropriate methods; # discuss the findings in light of the limitations of the study and in relation to previously published work; # consider what further work might arise from the conclusion; # express the study in correct English and present it in a form consistent with the acceptable scientific conventions for the particular discipline. # Communicate their findings through oral presentation and written thesis.
Assessment:	<p>Type of Assessment Timing of Assessment Assessment % An assignment (up to 3,000 words) End of semester 1 - 65% Research design presentation (15 minutes) End of semester 1 - 35%</p>
Prescribed Texts:	Project specific texts will be prescribed as required
Breadth Options:	This subject is not available as a breadth subject.
