

## POPH90265 Research Project In Public Health

<b>Credit Points:</b>	12.5
<b>Level:</b>	9 (Graduate/Postgraduate)
<b>Dates &amp; Locations:</b>	2015, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus. Semester 2, Parkville - Taught on campus.
<b>Time Commitment:</b>	Contact Hours: 21 hours: attendance at a half-day research training skills workshop (week 1 of semester), approximately fortnightly supervisor meetings, attendance at 1 full-day session for student oral presentations (week 11: of each semester). Total Time Commitment: 170 hours
<b>Prerequisites:</b>	Students must have an average mark of at least 70% in all recommended subjects to be eligible to enrol in the research project. Where this is not met, students with work experience in a relevant field of research with documented output will be considered. Entry into the research project in specific streams may require fulfilment of recommended subjects. An outline of stream recommended subjects will be available to students. Further specific prerequisite / corequisite subjects will be determined in consultation with the subject coordinator.
<b>Corequisites:</b>	None
<b>Recommended Background Knowledge:</b>	None
<b>Non Allowed Subjects:</b>	None
<b>Core Participation Requirements:</b>	For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website.
<b>Coordinator:</b>	Dr Ghazaleh Dashti

<b>Subject Overview:</b>	The Research Project is a capstone option within the Master of Public Health. Within the Research Project students will work in their chosen area of study with an appointed supervisor. Students will have the opportunity to undertake a literature review, develop research questions and undertake the research activities required to answer their research question. Activities include analysis of data, a systematic or narrative review of the literature, a small evaluation of a health program, a small qualitative research study, or the development of a research protocol. Some activities are only available in specific streams of the course.
<b>Learning Outcomes:</b>	Upon completion of this subject, students should have demonstrated their ability to: <ul style="list-style-type: none"> <li># critically appraise the existing research evidence in a specific area</li> <li># formulate a research question based upon a synthesis of the existing research evidence</li> <li># design and justify an appropriate research method to answer the research question</li> <li># conduct or evaluate research in a specific area and summarise, analyse and interpret research findings</li> </ul>

	<ul style="list-style-type: none"> <li># Communicate research effectively and appropriately in oral and written form to an audience.</li> <li># Reflect on the research process undertaken and the opportunity for future improvements</li> </ul>
<b>Assessment:</b>	An oral presentation of 15 minutes (10 minute presentation, 5 minutes questions), due during the sixth week of the semester (15%) An oral presentation of 20 minutes (15 minutes presentation, 5 minutes questions), due during the eleventh week of the semester (20%) A written research report of 5000 to 8,000 words, Students must pass the written research report (hurdle), due during the examination period (65%)
<b>Prescribed Texts:</b>	None
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
<b>Fees Information:</b>	Subject EFTSL, Level, Discipline & Census Date, <a href="http://enrolment.unimelb.edu.au/fees">http://enrolment.unimelb.edu.au/fees</a>
