Subject Overview:	<p>This subject expands creative and technical knowledge and experience gained over the previous two and a half years by placing the student in a key position in a practical environment. Through negotiation involving career planning, students are assigned a project specific to their individual learning plan. The students will be given project guidelines and parameters that pertain to their role and the scope of the project. The student could be supervised and mentored by both academic and professional staff during this process. Regular tutorials will be held to ensure the student's needs are met and this project will conclude with a feedback session which would enable the students to give considered responses to their learning outcomes.</p>								

Learning Outcomes:	This subject will provide the students with a better understanding of all the skills required to undertake a key role in a project and have greater confidence in their ability to fulfil a project brief and within defined parameters.
