

Waste Management

Year and Campus:	2016									
Coordinator:	Assoc Prof Graham Moore (Engineering)									
Contact:	<p>Office for Environmental Programs Ground Floor, Walter Boas Building (building 163)</p> <p><i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au)</p>									
Overview:	<p>Waste Management is offered as a major field of study in the Master of Environment degree.</p> <p>Waste is more than just what people throw in the bin. There are air-borne emissions, liquid wastes that impact on water supplies as well as the complex waste streams produced by industry that can have toxic impacts on the environment.</p> <p>Waste Management is concerned with the management of various waste streams. We study waste avoidance and minimisation, best environmental practice and provide the tools for sound decision making at the design and implementation phases of waste management projects.</p> <p>By studying Waste Management, you'll develop theoretical and practical skills for working in environmental control authorities, industry and elsewhere. If you are a student with an undergraduate degree in another discipline, gain investigative and management skills as part of an engineering education.</p> <p>You can expect to find employment in environmental control authorities, urban and industrial workplaces, local government, education, or as a consultant.</p>									
Learning Outcomes:	<p>Students who complete the Master of Environment will have:</p> <ul style="list-style-type: none"> # Knowledge to undertake professional practice in environment or sustainability, including: # Skills for collaborative and creative problem solving in environmental practice, including: # Demonstrated capacity to: <p>Upon successful completion of the Waste Management specialisation, students will be able to:</p> <ul style="list-style-type: none"> # Analyse various waste streams and identify opportunities for waste avoidance and minimisation # Design and implement strategies for waste management # Integrate knowledge and collaborate across disciplines and sectors to ensure the effectiveness of waste management projects 									
Structure & Available Subjects:	<p>Students will be required to complete the two core subjects, plus choose three subjects from the compulsory specialisation subject list. Students must also undertake electives to make up the balance of the award. The selection of electives is made in consultation with the Waste Management major coordinator.</p> <p>A list of subjects with special requirements within this specialisation can be found at http://environment.unimelb.edu.au/courses/streams/waste_management (http://environment.unimelb.edu.au/courses/streams/waste_management)</p>									
Subject Options:	<p>Core Subjects</p> <p>Students are required to complete the subjects:</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>MULT90004 Sustainability Governance and Leadership</td> <td>March, July</td> <td>12.50</td> </tr> <tr> <td>MULT90005 Interdisciplinarity and the Environment</td> <td>Semester 2</td> <td>12.50</td> </tr> </tbody> </table> <p>Compulsory Specialisation Subjects</p> <p>and choose 3 subjects from the list of:</p>	Subject	Study Period Commencement:	Credit Points:	MULT90004 Sustainability Governance and Leadership	March, July	12.50	MULT90005 Interdisciplinarity and the Environment	Semester 2	12.50
Subject	Study Period Commencement:	Credit Points:								
MULT90004 Sustainability Governance and Leadership	March, July	12.50								
MULT90005 Interdisciplinarity and the Environment	Semester 2	12.50								

Subject	Study Period Commencement:	Credit Points:
ENEN90005 Environmental Management ISO 14000	Semester 2	12.50
ENEN90006 Solid Wastes to Sustainable Resources	Semester 1	12.50
ENEN90029 Water and Waste Water Management	Semester 1	12.50
ENEN90031 Quantitative Environmental Modelling	Semester 1	12.50
ENEN90032 Environmental Analysis Tools	Semester 2	12.50

Elective Subjects

plus undertake electives to make up the balance of the award. The recommended list of electives includes:

Subject	Study Period Commencement:	Credit Points:
CHEM90007 Environmental Chemistry	Semester 1	12.50
ECON90016 Environmental Economics and Strategy	Semester 1	12.50
ENEN90028 Monitoring Environmental Impacts	Semester 2	12.50
ENST70001 Environmental Research Proj (50 Long)	Semester 1, Semester 2	25
ENST90002 Social Impact Assessment and Evaluation	Semester 2	12.50
ENST90006 Environmental Research Review (12.5)	Semester 1, Semester 2	12.50
ENST90007 Environmental Research Project (25)	Semester 1, Semester 2	25
ENST90016 Environmental Research Project (50)	Semester 1, Semester 2	50
ENST90017 Environmental Policy Instruments	Semester 2	12.50
EVSC90014 Environmental Risk Assessment	November	12.50
EVSC90015 Environmental Impact Assessment	Semester 1	12.50
FRST90034 Ecological Restoration	September	12.50
GEOL90005 Hydrogeology/Environmental Geochemistry	Semester 1	12.50
LAWS70068 Environmental Law	September	12.50
MAST90007 Statistics for Research Workers	July	12.50
NRMT90003 Social Research Methods	Semester 1	12.50
POPH90014 Epidemiology 1	Semester 1	12.50
ENST90024 Environmental Research Project - 25 Long	Semester 1, Semester 2	12.50
ENST90025 Environmental Industry Research (25)	Semester 1, Semester 2	25
ENST90026 Environmental Industry Research: 25 Long	Semester 1, Semester 2	12.50
ENST90020 Environmental Industry Research (50)	Semester 1, Semester 2	50
ENST70002 Environmental Industry Research: 50 Long	Semester 1, Semester 2	25
