Year and Campus:	2016																	
Coordinator:	Dr Alessandro Soncini																	
Contact:	Administrator Ms Andrea Oliver School of Chemistry Email: a.oliver@unimelb.edu.au (mailto:a.oliver@unimelb.edu.au)																	
Overview:	The Graduate Certificate allows students who have completed an undergraduate degree to refocus or expand their body of knowledge by completing the requirement of one of the undergraduate majors (or equivalent) in the Bachelor of Science not already completed. The Graduate Certificate provides a pathway to the Master of Science Streams.																	
Learning Outcomes:	Students who complete the Graduate Certificate should: <ul style="list-style-type: none"> # Demonstrate an independent approach to knowledge that uses rigorous methods of inquiry and appropriate theories and methodologies that are applied with intellectual honesty and a respect for ethical values; # Apply critical and analytical skills and methods to the identification and resolution of problems; # Act as informed and critically discriminating participants within the community of scholars, as citizens and in the work force; # Communicate effectively; # Commit to continuous learning; # Be proficient in the use of appropriate modern technologies, such as the computer and other information technology systems, for the acquisition, processing and interpretation of data. Core participation requirements: Laboratory experiments This discipline requires students to actively, independently and safely participate in all practical classes, utilising a range of observational, communication, motor, intellectual, and behavioural and social skills. Visual acuity, muscle coordination and balance are essential for participation. Assessment is reliant on careful observation and visual interpretation of results.																	
Structure & Available Subjects:	Completion of 62.5 points of study <ul style="list-style-type: none"> # 50 points of study at level 3 # 12.5 points of study at level 9 																	
Subject Options:	Subject prerequisites: For stream specific requirements please click here (http://science.unimelb.edu.au/available-stream-requirements%20) .
