Overview:	The Graduate Diploma in Science (Advanced) program in Physics is designed to allow students to further their study of physics on a broad front, provide a pathway for entry into graduate study in Physics, and to engage students in their own research by participation in the activities of a research group in the School of Physics (coursework+research option). Prior study in Physics to at least 2nd year university level is assumed.																											
Learning Outcomes:	<ul style="list-style-type: none"> # increase students' knowledge of physics on a broad front and to a professional level; # analyse how to solve a problem by applying simple fundamental laws to more complicated situations; # develop independent and critical thinking skills. 																											
Structure & Available Subjects:	<p>The Physics program consists of a:</p> <ul style="list-style-type: none"> # Coursework+Research Option (Coursework = 50 points, Research Project = 50 points) <p>OR</p> <ul style="list-style-type: none"> # Coursework (100%) Option (Coursework = 100 points).

Depending on the coursework subjects taken a student would normally enrol in a combination of Research Project subjects as indicated below to ensure they have completed 50 points by the end of the course.

Subject	Study Period Commencement:	Credit Points:
PHYC40002 Physics Research Project	Semester 1, Semester 2	25
PHYC40004 Physics Research Project	Semester 1, Semester 2	12.50
PHYC40007 Physics Research Project	Semester 1, Semester 2	37.50
PHYC40008 Physics Research Project	Semester 1, Semester 2	50

Coursework (100%) Option

COURSEWORK

Students must select eight subjects from the following list in consultation with the Program Coordinator:

Subject	Study Period Commencement:	Credit Points:
PHYC90007 Quantum Mechanics	Semester 1	12.50
PHYC90008 Quantum Field Theory	Semester 1	12.50
PHYC90012 General Relativity	Semester 1	12.50
PHYC90013 Condensed Matter Physics	Semester 2	12.50
PHYC90010 Statistical Mechanics	Semester 1	12.50
PHYC90011 Particle Physics	Semester 2	12.50
PHYC90009 Physical Cosmology	Semester 2	12.50
PHYC90006 Quantum and Advanced Optics	Semester 2	12.50

Other approved subjects at 300 level or higher. A maximum of four 300 level subjects can be taken.
