Subject Overview:	This subject will survey the history of architecture and urbanism from the beginnings of shelter to the end of the 17th century in the context of social, technical and environmental settings. It will include the architecture and design traditions of early civilisations in the Middle East, Europe, South Asia, East Asia, South America and the Pacific. It will analyse the values reflected in vernacular buildings (housing), religious institutions (churches, temples), and the power of ruling institutions (state, city, palace and empire).						
Learning Outcomes:	<p>On completion of this subject, students will be able to:</p> <ul style="list-style-type: none"> # demonstrate a broad understanding of the history of architecture and urbanism from ancient origins to the end of the 17th century in both the East and the West; # understand concepts of spatial organisation, construction, theory and representation which are useful in the analysis of architecture; # analyse buildings and places in terms of their context, form, spatial grammar, structural approaches, function and social role. 						

Assessment:	Three written submissions with graphic content equivalent to a total of 3000 words due from weeks 4 to 10 (totalling 60%). A two-hour end-of-semester examination (40%).
