Subject Overview:	<p>This studio follows a multi-objective approach in exploring the interrelation between site and design in landscape architectural practice. Site exploration and conceptual design aspects of site transformation are introduced, alongside 3D representation techniques.</p> <p>Emphasis will be given to a process-based approach in the idea generation to formulate creative, integrative and cohesive design responses to a set design brief.</p>								
Learning Outcomes:	<ul style="list-style-type: none"> # Critical thinking: To critically interrogate precedents and articulate theories and practices in landscape design # Design process: To understand and apply a range of processes and techniques for exploring sites and generating multiple design outcomes # Communication: To effectively represent and communicate design ideas in 3D with special focus on digital media # Material space: To demonstrate an advanced understanding of design as a material space 								

Assessment:	Assignment 1 (Group project – 3 per group) - Design exploration through video documentation and editing, equivalent of 2000 words per student - due Week 3 (20%) Assignment 2 (Individual project) - Design exploration through digital modelling techniques and simulation, equivalent of 2000 words - due Week 6 (20%) Assignment 3 (Group project – 3 per group) - Design exploration through physical prototyping and testing, equivalent of 2000 words per student - due Week 9 (20%) Assignment 4 (Individual project) – Final Design Project, Design project equivalent of 4000 words - due Week 14 (40%) Hurdle Requirement: Attendance and participation in 75% of the studios is a mandatory requirement.
