<b>Subject Overview:</b>	Anthropology explores the different ways people live their lives. In this subject, an introduction to foundational knowledge in the discipline, you will be exposed to a variety of social and cultural forms around the world and the methods and theories developed to understand them as diverse expressions of a shared human condition. Topical issues that will be encountered include how different peoples around the world experience and react to pleasure, suffering and death; use ritual, religion and magic to understand and change their worlds; organise their sexual and family lives and their friendship networks; create and maintain their identities; and maintain and resist the relations of power in which they are all enmeshed. Comparative ethnographic examples will illustrate a range of disciplinary concerns in anthropological research ethics and practice, the dynamic interaction between processes of order and change in social life, and its effects on how people experience the different worlds they inhabit.
<b>Learning Outcomes:</b>	On completion of this subject students should: <ul style="list-style-type: none"> <li># Develop a foundational understanding of key theoretical debates and ethnographic case studies in social and cultural anthropology;</li> <li># Develop a basic understanding of how anthropology has developed as a discipline since the turn of the 20th century and the social, historical and intellectual contexts that have contributed to this development;</li> <li># Develop skills in conducting research, and speaking, writing and reading carefully and critically;</li> <li># Work with reflexivity and sensitivity to understand and appreciate cultural diversity within a community of scholars as well as in the wider community.</li> </ul>
<b>Assessment:</b>	An ethnographic observation exercise of 1000 words (25%) due Week 5. A one hour multiple choice test (25%) scheduled in Week 12. A 2000 word essay (50%) due during the examination period. Hurdle requirement: Students must attend a minimum of 75% of tutorials in order to pass this subject.
