Subject Overview:	This subject will provide students the opportunity to gain extended industry experience through project work. Students will engage with industry collaborators and asked to manage real concept proposals. They will work in teams to recommend potential avenues for improvement, refinement or evaluation of an existing project or concept idea that is identified or deemed of interest by the industry collaborators. In small teams students will present the results to an audience of industry specialists, clients and peers. Students will be exposed to the rigour of processes undertaken in the industry. Seminars will incorporate team building activities, business strategies, communication, time management and knowledge of organisations, workplace culture and career pathways.
Learning Outcomes:	<p>On completion of this subject students will have:</p> <ul style="list-style-type: none"> # Developed skills in conducting effective and timely research, analysis and report-writing; # Gained insight into the complexities of professional decision making and management; # Developed a capacity to evaluate their experience and to share their findings through written and oral reports; # Illustrate understanding of the industry concepts and principles associated with project development and problem solving.
Assessment:	Business meeting serves as presentation (10 minutes), due Week 7 (20%) Project Summary (1500 words), due Week 10 (40%) Project Proposal (1500 words), due in the examination period (40%) Hurdle requirement: Students must attend a minimum of 80% of seminars in order to pass this subject. Regular participation in the seminars is required. All pieces of written work must be submitted to pass this subject. Note: Assessment submitted late without an approved

	extension will be penalised at 10% per working day. In-class tasks missed without approval will not be marked.
Prescribed Texts:	Readings and resources will be provided via the LMS.
Breadth Options:	This subject is not available as a breadth subject.
