Subject Overview:	<p>The Marketing subject focuses on the challenges faced by organisations in managing demand, and how to address those challenges with optimal demand-side strategies. To be successful, organisations have to be able to recognise, create, grow, and protect market-based assets that influence demand. Brand equity, the installed base of customers, and support from channels (e.g., intermediaries such as retailers) constitute the most important market-based assets that help produce market outcomes such as sales growth, price premiums, market share, customer share, customer retention, customer referrals, and addressable markets.</p> <p>In this subject, students will learn how (and which) marketing investments help develop market-based assets, how market-based assets translate into market outcomes, and how market outcomes in turn help in ensuring the long-term survival and success of organisations.</p>
Learning Outcomes:	<p>Upon completion of this subject, students will be able to:</p> <ol style="list-style-type: none"> 1 Develop and manage the demand-based growth strategies for the firm. To achieve this objective, students need to: <ul style="list-style-type: none"> # Understand the value of market-based assets, including brands, customer bases, and channel support. # Be able to identify and evaluate the vulnerability (risk) of, and opportunities in, their market-based assets. # Understand how their market-based assets translate into demand outcomes for the firm.

	<ul style="list-style-type: none"> # Be able to identify and evaluate sources of demand-based growth (e.g., retention, share of wallet, share of market, referral, margin and addressable markets). # Be able to identify and evaluate strategies that will help a firm succeed along each of the growth dimensions. <p>2. Manage demand-side strategies for the firm. To achieve this objective, students need to be able to apply the following activities:</p> <ul style="list-style-type: none"> # Value management: Understand the concept of value from the customer's perspective; be able to measure value and develop products/services that provide value. # Segmentation: Be able to segment a market based on the differences in value (perceived and desired) across customers # Targeting: Be able to identify and evaluate what makes a segment of customers attractive to the firm, # Positioning: Be able to create a unique and attractive selling proposition for the firm's brands # Marketing mix management: Be able to capture, communicate, and deliver value via pricing, communications, and channel management. # Product management: Be able to manage portfolios of brands # Customer management: Be able to manage portfolios of customers.
