Chong-Gossard</u> (http://shaps.unimelb.edu.au/about/staff/dr-ko-chong-gossard) Email: koc@unimelb.edu.au (mailto:koc@unimelb.edu.au)</p>
Subject Overview:	This subject supports the development of the skills and knowledge required to undertake research in the field of Classics. Students will investigate current issues, tools and methodologies in the field, and work on formulating and presenting a research project related to their thesis. Future research pathways and the current international context for the study of Classics will also be explored. Students will evaluate and utilise a number of different approaches to the study of classical texts and culture as well as develop practical skills needed for a research career in the field.
Learning Outcomes:	Students who successfully complete this subject should: <ul style="list-style-type: none"> # understand current issues and methodologies in the field of Classics. # be knowledgeable about the current careers pathways for researchers in the field of Classics and the state of the field internationally. # be able to formulate, evaluate and undertake effective research projects in Classics.
Assessment:	2000 word article/chapter analysis due, in week 8 of semester (40%); 1000 word research presentation, due in Week 12 of semester (20%); 2000 word research grant proposal, due in the examination period (40%) Hurdle requirement: students must attend a minimum of 75% of classes in order to pass this subject. All pieces of written work must be submitted to pass this subject. Note: Assessment submitted late without an approved extension will be penalised at

	2% per day; after five working days late assessment will not be marked. In-class tasks missed without approval will not be marked.
Prescribed Texts:	Subject readings will be available on line David M Schaps, Handbook for Classical Research (Routledge, 2011)
Breadth Options:	This subject is not available as a breadth subject.
