Subject Overview:	The topics covered in this intensively taught subject will reflect those identified by the conservation sector as necessary and relevant to contemporary professional practice. The subject provides students with the opportunity to acquire and develop specialised skills in a professional industry setting. Lectures, seminars, and practical sessions will be led by national and internationally recognised experts. This unit is taught intensively over one week. During the pre-teaching period students are expected to complete the readings, review the lectures and any other course preparation as outlined on the course LMS. The LMS will be available at the beginning of the pre-teaching period.
Learning Outcomes:	Upon completion of this subject students should be able to: # demonstrate that they have gained indepth knowledge in one or more conservation specialist areas.
Assessment:	A 2000 word reflective essay combined with a practical exercise due during the assessment period (40%) A 3000 word theoretical essay due during the assessment period (60%) Hurdle requirement: Students are required to attend a minimum of 100% of classes in order to pass this subject.
Prescribed Texts:	Course notes and reading material will be supplied during the pre-teaching period.
Breadth Options:	This subject is not available as a breadth subject.
