

ECOL30007 Marine Ecosystems: Ecology & Management

Credit Points:	12.5									
Level:	3 (Undergraduate)									
Dates & Locations:	2016, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus.									
Time Commitment:	Contact Hours: 28 lectures; 4 tutorials; 12 hours of group multimedia presentations Total Time Commitment: 170 hours									
Prerequisites:	One of <table border="1" data-bbox="387 573 1485 779"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>EVSC20004 Blue Planet-Intro to Marine Environments</td> <td>Semester 1</td> <td>12.50</td> </tr> <tr> <td>ECOL20003 Ecology</td> <td>Semester 2</td> <td>12.50</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	EVSC20004 Blue Planet-Intro to Marine Environments	Semester 1	12.50	ECOL20003 Ecology	Semester 2	12.50
Subject	Study Period Commencement:	Credit Points:								
EVSC20004 Blue Planet-Intro to Marine Environments	Semester 1	12.50								
ECOL20003 Ecology	Semester 2	12.50								
Corequisites:	None									
Recommended Background Knowledge:	None									
Non Allowed Subjects:	None									
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>									
Coordinator:	Dr Eric Trembl, Dr John Morrongiello									
Contact:	Dr Eric Trembl etrembl@unimelb.edu.au (mailto:etrembl@unimelb.edu.au)									
Subject Overview:	The oceans cover 71% of the earth's surface and are vital to the well being of humans in many ways. This subject covers our current understanding of the biology of marine organisms and how marine scientists assess environmental impacts, manage exploited species and conserve biodiversity.									
Learning Outcomes:	The subject will provide students with exposure to current issues in marine biology and their relevance to marine conservation and management.									
Assessment:	Mini-symposium (presentation and participation, 20%) at the end of semester; critiques of tutorial readings (up to 2000 words) due throughout semester (20%); mid-term written examination of 1 hour (20%); written examination of 2 hours during the final examination period (40%)									
Prescribed Texts:	None									
Breadth Options:	This subject potentially can be taken as a breadth subject component for the following courses:									

	<p># Bachelor of Arts (https://handbook.unimelb.edu.au/view/2016/B-ARTS)</p> <p># Bachelor of Biomedicine (https://handbook.unimelb.edu.au/view/2016/B-BMED)</p> <p># Bachelor of Commerce (https://handbook.unimelb.edu.au/view/2016/B-COM)</p> <p># Bachelor of Environments (https://handbook.unimelb.edu.au/view/2016/B-ENVS)</p> <p># Bachelor of Music (https://handbook.unimelb.edu.au/view/2016/B-MUS)</p> <p>You should visit learn more about breadth subjects (http://breadth.unimelb.edu.au/breadth/info/index.html) and read the breadth requirements for your degree, and should discuss your choice with your student adviser, before deciding on your subjects.</p>
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<ul style="list-style-type: none"> # Ability to understand current scientific literature; to identify knowledge gaps; and to explain the important concepts to non-scientist. # Ability to critique methods and experimental designs used in research. # Ability to read and synthesize current primary scientific literature and produce concise pieces of scientific writing and oral presentations.
