<b>Contact:</b>	Terry Bowles <a href="mailto:tbowles@unimelb.edu.au">tbowles@unimelb.edu.au</a> (mailto:tbowles@unimelb.edu.au) Cheree Murrihy <a href="mailto:cheree.murrihy@unimelb.edu.au">cheree.murrihy@unimelb.edu.au</a> (mailto:cheree.murrihy@unimelb.edu.au)
<b>Subject Overview:</b>	This subject reviews contemporary theories of learning, individual differences in learning, competence versus performance, cognitive and social influences on the means by which individuals display knowledge, the development, implementation and evaluation of appropriately-referenced instructional procedures, developmental trends in the acquisition of knowledge in the areas of literacy and mathematics, the psychology of learning disabilities, the assessment of learning disabilities and the design and implementation of effective intervention. Throughout the focus is on how these issues can inform the work of the educational psychologist.
<b>Learning Outcomes:</b>	On subject completion students should be able to <ul style="list-style-type: none"> <li># critically analyse and evaluate selected contemporary theories of learning and development in terms of their relevance to the work of educational psychologists;</li> <li># evaluate assumptions, practices and procedures used in contemporary educational psychological work in terms of current theories of cognitive processing, cognitive development and learning;</li> <li># develop and implement relevant knowledge assessment procedures, intervention and instructional procedures across the life span, that are supported by current research in learning;</li> <li># diagnose, recommend appropriate instructional and management procedures and report the nature of specific academic learning disabilities; and</li> <li># evaluate the effectiveness of assessment and education programmes intended for use with learners who have a range of academic learning disabilities from a contemporary research base.</li> </ul>

<b>Assessment:</b>	Written Assignment: Report and Intervention Plan (300 words), due mid-subject (30%) Written Assignment: Functional Analysis Report (2200 words), due end of subject (70%) This subject has a minimum hurdle requirement of 80% attendance at all tutorials, seminars and workshops.
<b>Prescribed Texts:</b>	Eggen,P &Kauchak, D. (1999). Educational Psychology : Windows on classrooms. Upper Saddle River, NJ : Prentice Hall
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
<b>Fees Information:</b>	Subject EFTSL, Level, Discipline & Census Date, <a href="http://enrolment.unimelb.edu.au/fees">http://enrolment.unimelb.edu.au/fees</a>
<b>Generic Skills:</b>	On completion of this subject students should be able to <ul style="list-style-type: none"> <li># critically analyse selected contemporary theories of learning and approaches to the assessment of reading disabilities;</li> <li># develop a problem solving approach to the diagnosis of learning contexts and of specific learning disabilities;</li> <li># develop skills in communicating effective learning criteria and the nature of particular cases of reading disabilities to teachers, parents and students;</li> <li># use the model of learning developed in lectures to implement effective intervention and instructional procedures and the model of literacy knowledge to plan a schedule for implementing a literacy support program;</li> <li># work in a team with other educational psychologists to analyse instructional and management procedures, assessment and education programmes;</li> <li># display positive attitudes to the implementation of effective instruction and to the diagnosis and remediation of reading disabilities.</li> </ul>
