

EDUC90457 Learning Area Mathematics 1

Credit Points:	12.5
Level:	9 (Graduate/Postgraduate)
Dates & Locations:	2016, Parkville This subject commences in the following study period/s: February, Parkville - Taught on campus.
Time Commitment:	Contact Hours: 36 hours Total Time Commitment: 170 hours
Prerequisites:	Teacher Candidates must meet the minimum academic study requirements for teaching in specialist areas, in accordance with the Victorian Institute of Teaching's Specialist Area Guidelines (http://www.vit.vic.edu.au/finditfast/Teacher-education-programs/Pages/Assessmentofqualifications.aspx), for entry into this subject.
Corequisites:	None
Recommended Background Knowledge:	None
Non Allowed Subjects:	None
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>
Coordinator:	Dr Lynda Ball

Subject Overview:	<p>This subject provides an orientation to teaching Years 7-10 mathematics in Victorian schools. Teacher candidates will develop pedagogical content knowledge for the effective teaching and learning of the following mathematics strands in the Australian curriculum:</p> <ul style="list-style-type: none"> # Content Strands: Number and Algebra, Measurement and Geometry, Statistics and Probability # Proficiency Strands: Understanding, Fluency, Problem Solving, Reasoning. <p>Teacher candidates will consider curriculum documents, lesson planning, classroom assessment of and for learning, effective use of resources (e.g. technology, textbooks), and the provision of a balanced curriculum incorporating the four proficiency strands above.</p> <p>A research-informed analysis of school students' mathematical understanding in selected topics will provide insight into teaching strategies to cater for school students' individual differences and personalise their learning.</p> <p>Teacher candidates will consider important pedagogical issues such as: questioning, selection of good examples, representations and models of mathematical ideas. Teacher candidates will form an appreciation of exemplary mathematics teaching, and develop reflective mathematics teaching practices.</p>
Learning Outcomes:	<p>On completion of this subject, teacher candidates will be able to:</p> <ul style="list-style-type: none"> # Demonstrate pedagogical content knowledge for teaching years 7-10 mathematics; # Demonstrate knowledge of the Victorian years 7-10 mathematics curriculum;

	<ul style="list-style-type: none"> # Use research to inform teaching strategies to cater for school students' individual differences; # Reflect on and evaluate teaching practices to improve their own mathematics teaching; # Demonstrate the ability to plan effective mathematics lessons incorporating good teacher questions and appropriate examples, explanations and tasks; # Use resources, including technology, effectively in mathematics teaching; # Understand the components of a balanced curriculum; # Demonstrate a knowledge of how to assess mathematical understanding. <p>The subject covers a range of the National Professional Standards for Teachers (for Graduate Teachers). In particular, the subject will contribute to students attaining the following standards:</p> <ul style="list-style-type: none"> 1.2 Understand how students learn 1.5 Differentiate teaching to meet the specific learning needs of students across the full range of abilities 2.1 Content and teaching strategies of the teaching area 2.2 Content selection and organisation 2.3 Curriculum, assessment and reporting 2.6 Information and Communication Technology (ICT) 3.3 Use teaching strategies 3.4 Select and use resources 5.1 Assess student learning 5.4 Interpret student data
Assessment:	There are 2 assessment tasks: A report critiquing resources for a given topic (2000 words equivalent) due mid-semester, 50%. Report on pedagogical issues associated with the teaching of a topic (2000 words equivalent) due end of semester, 50%. This subject has a minimum hurdle requirement of 80% attendance at all tutorials, seminars and workshops.
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of this subject, teacher candidates will have the knowledge, skills and understanding to enable them to:</p> <ul style="list-style-type: none"> # Be skilled communicators who can effectively articulate and justify their practices as knowledgeable agents of changes. # Be flexible and able to adapt to change through knowing how to learn; # Understand the significance of developing their practice on the basis of research evidence; # Work in teams with skills in cooperation, communication and negotiation; # Be independent of mind, responsible, resilient, self-regulating; # Have a conscious personal and social values base.
