Course Overview:	<p>The Graduate Certificate in Adolescent Health and Wellbeing is a four subject course, with a choice of two specialisations - a health promotion specialisation and an oncology specialisation.</p> <p>The Graduate Certificate in Adolescent Health and Wellbeing is designed to enable students to:</p> <ul style="list-style-type: none"> # articulate and critically examine their own understandings of professional practice in working with young people in a variety of contexts; # further develop and apply critically reflective, evidence-informed approaches to adolescent health and wellbeing practice, program development and policy analysis; # identify and analyse the broader social, cultural and environmental factors which impact on and influence practitioners and young people; # analyse and critically evaluate contemporary theories of adolescence and adolescent development (including historical and cultural contexts), to enhance one's own practice in working with young people, families, communities and agencies; # identify national and international adolescent health issues and trends and relate these to the broader socio-environmental contexts impacting on the health and wellbeing of young people; # critically examine life-course or life-stage approaches to adolescent health recognising casual pathways; # identify the principles associated with micro and macro approaches to practice and use them to develop enhanced prevention and intervention strategies when working with young people, families, communities and agencies; # analyse, evaluate and apply ecological models of resiliency, risk and protection in adolescent health; # engage young people, families and other professionals in the development and implementation of strategies to promote adolescent health and wellbeing; # review current practice against established legal, ethical, confidential and professional principles / codes of practice and recommend strategies to enhance professional judgment; # identify the professional settings and services which interact with young people and explore potential strategies to enhance inter-agency collaboration, communication and referral; # develop strategies for engaging culturally diverse communities to enhance youth participation, active engagement, inclusivity and capacity building.
Learning Outcomes:	<p>It is expected that on completion of this course students will be able to:</p> <p><i>Communication and Advocacy Skills</i></p> <ul style="list-style-type: none"> # communicate effectively both orally and in writing with a diverse range of audiences in a range of professional contexts (eg. when working with young people, families, agencies, other professionals and the media);

- # analyse and present arguments for change and inform these using relevant evidence from contemporary research and policies impacting on young people, their families and workers in professional practice settings;
- # apply interview, conflict resolution and feedback strategies that reflect sensitivity to the needs of individuals and groups.

Capacity Building Skills

- # work effectively, in a non-judgmental way with young people, different sectors and families from diverse cultural backgrounds and community contexts;
- # develop collaborative ways of working and learning by contributing to cross-disciplinary networks and partnerships within / across the different agencies, sectors and professions which work with young people;
- # develop approaches to initiate change (eg. in one's own organisation; when working with young people; in contributing to policy development; and in continuing to develop and reflect on one's own practice).

Research and Evaluation Skills

- # use a range of information and communication technologies to effectively locate, select, represent, communicate and manage information;
- # analyse, critically evaluate and use contemporary research literature and professional information to inform development of evidence-based approaches to practice, program design, treatment approaches and policy analysis;
- # apply a range of program evaluation approaches, including selection of appropriate evaluation methods, monitoring of the impact / outcomes of program developments and needs assessment.

Critical Reflection and Cognition Skills

- # evaluate and apply different frameworks of thinking, theory, and approach to inform decision making and professional practice;
- # actively participate in collaborative, critical enquiry processes as a means of enhancing one's own learning and developing evidence-informed approaches to practice;
- # identify, analyse and critically reflect on the relationship between context and health that impact on a young person, family, community or professional.

Legal and Ethical Skills

- # recognise and apply the policy, legislative and organisational rules and guidelines within which professions practice;
- # develop strategies for dealing with ethical issues in adolescent health care.

In addition to the objectives outlined above, the Graduate Certificate in Adolescent Health and Wellbeing is designed to enable students to:

- # demonstrate a commitment to critical enquiry and evidence-based practice so as to maintain currency with contemporary debates and continuously inform practice;
- # analyse and reflect on national and international adolescent health issues and trends as they relate to particular communities and professional practice settings;
- # further develop and apply principles associated with micro and macro approaches to practice in adolescent health and wellbeing;
- # plan, implement and evaluate effective prevention, early intervention and intervention strategies relevant to work with young people.

In addition to the capabilities outlined above, it is expected that graduate will be able to:

- # further develop collaborative ways of working within / across the different agencies, sectors and professions which work with young people;
- # implement change processes within and beyond their own organisation to enhance youth participation, engagement and inclusivity;
- # implement and evaluate evidence-based practice strategies as they relate to particular communities and professional practice settings.

Course Structure & Available Subjects:	Students must satisfactorily complete either specialisation of four core subjects to qualify for the Graduate Certificate in Adolescent Health and Wellbeing.
Majors/Minors/ Specialisations	The Graduate Certificate in Adolescent Health and Wellbeing has two options for specialisation - the Health Promotion or the Oncology specialisation.
Subject Options:	Core Subjects

Compulsory subjects for both specialisations are:

Subject	Study Period Commencement:	Credit Points:
POPH90167 Young People in Context	Semester 1	12.50
PAED90007 Professional Practice in Context	Semester 1	12.50

Health Promotion Specialisation

The following two subjects are compulsory for the Health Promotion Specialisation

Subject	Study Period Commencement:	Credit Points:

POPH90173 Health Promotion and Young People	Semester 2	12.50

Oncology Specialisation

The following two subjects are compulsory for the Oncology Specialisation

Subject	Study Period Commencement:	Credit Points:
PSYC90062 Mental Health and Young People	Semester 2	12.50
PAED90026 Cancer Care in Young People	Semester 2	12.50

Entry Requirements:

- In order to be considered for entry, applicants must have completed:
 - either
 - an undergraduate degree in a cognate discipline such as Education, Health Science, Social Work or related discipline, or equivalent, or
 - an undergraduate degree in any discipline, or equivalent, and at least two years of documented relevant work experience, or
 - at least five years of documented relevant work experience, including clear evidence of career development, of professional writing, and generally of professional achievement or practice comparable to that expected of undergraduate degree holders;
 - and
 - a curriculum vitae in a form prescribed by the Selection Committee.
 Meeting these requirements does not guarantee selection.
 - In ranking applications, the Selection Committee will consider:
 - prior academic performance and/or work experience.
 - The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board **rules (<http://about.unimelb.edu.au/academicboard/resolutions>)** on the use of selection instruments.
 - Applicants are required to satisfy the university's English language requirements for postgraduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance **band 6.5 (<http://about.unimelb.edu.au/academicboard/resolutions>)** is required.
- Note.
- Students who complete the Graduate Diploma in Adolescent Health and Wellbeing with a weighted average mark of at least H2B (75%) will be permitted to transfer into the Master of Adolescent Health and Wellbeing with 100 points of credit.
 - Students who enter directly into the Master of Adolescent Health and Wellbeing program (having not previously completed the Graduate Diploma) are required to achieve with a weighted average mark of at least H2B (75%) in the Graduate Diploma level subjects in order to progress to the final 100 credit points of the Master of Adolescent Health and Wellbeing. Students who fail to achieve a 75% average in the Graduate Diploma level subjects are eligible to receive the Graduate Diploma as an exit award if all relevant subjects have been passed.

Core Participation Requirements:

<p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to

	take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability
Graduate Attributes:	Specific knowledge and skills to work in adolescent health and wellbeing practice, program development and policy analysis.
