

GEOL30009 Advanced Field Geology

Credit Points:	12.5								
Level:	3 (Undergraduate)								
Dates & Locations:	2016, Parkville This subject commences in the following study period/s: July, Parkville - Taught on campus.								
Time Commitment:	Contact Hours: 12 days of fieldwork. Total contact is 72 hours Total Time Commitment: Estimated total time commitment of 170 hours								
Prerequisites:	<table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>GEOL20004 Field Mapping and Sedimentary Geology</td> <td>June</td> <td>12.50</td> </tr> </tbody> </table>			Subject	Study Period Commencement:	Credit Points:	GEOL20004 Field Mapping and Sedimentary Geology	June	12.50
Subject	Study Period Commencement:	Credit Points:							
GEOL20004 Field Mapping and Sedimentary Geology	June	12.50							
Corequisites:	None								
Recommended Background Knowledge:	None								
Non Allowed Subjects:	None								
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>								
Coordinator:	Dr Steven Boger								
Contact:	Email: mww@unimelb.edu.au (mailto:mww@unimelb.edu.au)								
Subject Overview:	<p>Depending on staffing and student numbers, excursion sites may include:</p> <ul style="list-style-type: none"> # Flinders Ranges of South Australia, where students will be introduced to the style of sedimentation and nature of deformation and exhumation of portions of the Adelaide Geosyncline; # Broken Hill and regions within the Curnamona Craton of South Australia and New South Wales in which students will be introduced to skills that are relevant to the understanding of packages of deformed and metamorphosed rocks and their interpretation # Central Australia in which students will be introduced to an intracontinental fold and thrust belt and its relationship to the adjacent metamorphic basement and sedimentary basin; 								
Learning Outcomes:	At the end of this subject, students should have skills in field geology that will enable them to identify unfamiliar minerals and rocks in the field, collate and interpret observations from stratigraphy and rock relationships and structural geology. They should appreciate how observable geological phenomena can be documented, analysed and interpreted to provide an understanding of Earth processes.								
Assessment:	A written report of up to 2500 words due at the end of semester (75%); Selected field exercises and laboratory exercises (25%).								
Prescribed Texts:	None								

<p>Breadth Options:</p>	<p>This subject potentially can be taken as a breadth subject component for the following courses:</p> <ul style="list-style-type: none"> # Bachelor of Arts (https://handbook.unimelb.edu.au/view/2016/B-ARTS) # Bachelor of Commerce (https://handbook.unimelb.edu.au/view/2016/B-COM) # Bachelor of Environments (https://handbook.unimelb.edu.au/view/2016/B-ENVS) # Bachelor of Music (https://handbook.unimelb.edu.au/view/2016/B-MUS) <p>You should visit learn more about breadth subjects (http://breadth.unimelb.edu.au/breadth/info/index.html) and read the breadth requirements for your degree, and should discuss your choice with your student adviser, before deciding on your subjects.</p>
<p>Fees Information:</p>	<p>Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees</p>
<p>Notes:</p>	<p>This subject is available for science credit to students enrolled in the BSc (both pre-2008 and new degrees), BASc or a combined BSc course.</p> <p>Special Requirements: Geological hammer, hand lens and magnet. Students should consult the Earth Sciences web site for dates, charges for excursions, accommodation and food and other information including safety requirements.</p>
<p>Related Course(s):</p>	<p>Master of Geoscience</p>
<p>Related Majors/Minors/Specialisations:</p>	<p>Geology Geology Geology Geology Geology Science-credited subjects - new generation B-SCI and B-ENG. Selective subjects for B-BMED</p>
