

MC-DESURBD Master of Design (Urban Design)

Year and Campus:	2016														
CRICOS Code:	072813M														
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees														
Level:	Graduate/Postgraduate														
Duration & Credit Points:	100 credit points taken over 12 months														
Coordinator:	Associate Professor Justyna Karakiewicz														
Contact:	<p>Currently enrolled students:</p> <ul style="list-style-type: none"> • General information: https://ask.unimelb.edu.au (http://ask.unimelb.edu.au/) • Contact Stop 1 (http://students.unimelb.edu.au/stop1) 														
Course Overview:	<p>There are no more intakes into this course. Applicants interested in graduate studies in Urban Design should refer to the handbook entry for MC-URBDES Master of Urban Design (../view/2016/mc-urbdes) .</p> <p>The Master of Design (Urban Design) is a post-professional course for those with an existing qualification in the disciplines represented in the Melbourne School of Design (MSD) or related, plus relevant work experience. It allows professionals to enhance existing qualifications through advanced studies in urban design in a program that meets market demand both locally and internationally. The Master of Design (Urban Design) at the MSD develops professionals capable of seeing the city from multiple viewpoints and who relish working in interdisciplinary teams.</p> <p>The strengths of this course are the people it involves and the atmosphere they create. People who make urban design at the MSD what it is, are the staff and students. Our core group of staff bring together experience and active involvement in current urban design research, design research and education. A broader teaching team with expertise in landscape architecture and urban planning adds diversity and richness. Master of Design students, from diverse professional backgrounds, provide their own perspectives, energy and aspirations to add to a multicultural complexity that make our course special.</p>														
Learning Outcomes:	<p>The program aims to:</p> <ul style="list-style-type: none"> # Provide a masters level education in urban design which meets the market in urban design practice both locally and internationally; # Provide students with expert knowledge in urban design and related areas; and # Serve an integrating role between the disciplines of the Faculty, building cross disciplinary strengths and teaching efficiencies. 														
Course Structure & Available Subjects:	75 credit points - core subjects 25 credit points - elective subjects														
Subject Options:	<p>Core subjects (75 points)</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>ABPL90061 Urban Design Studio A</td> <td>Semester 1</td> <td>25</td> </tr> </tbody> </table> <p>OR</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>ABPL90273 Urban Design Studio B</td> <td>Semester 1, Semester 2</td> <td>25</td> </tr> </tbody> </table> <p>AND</p>			Subject	Study Period Commencement:	Credit Points:	ABPL90061 Urban Design Studio A	Semester 1	25	Subject	Study Period Commencement:	Credit Points:	ABPL90273 Urban Design Studio B	Semester 1, Semester 2	25
Subject	Study Period Commencement:	Credit Points:													
ABPL90061 Urban Design Studio A	Semester 1	25													
Subject	Study Period Commencement:	Credit Points:													
ABPL90273 Urban Design Studio B	Semester 1, Semester 2	25													

Subject	Study Period Commencement:	Credit Points:
ABPL90169 Design Thesis	Semester 1, Semester 2	25
ABPL90017 Urban Design Theory	Semester 1	12.50
ABPL90066 MSD Research Project Short (12.5 Points)	January, Semester 1, Semester 2	12.50

Urban Design electives (25 points)

Urban Design Theory

Subject	Study Period Commencement:	Credit Points:
ABPL90150 Theorising the Asian Metropolis	Not offered 2016	12.50
ABPL90266 Inclusive Cities	Semester 1	12.50
ABPL90279 Cities Without Slums	July	12.50
ABPL90357 Architecture and Politics	Not offered 2016	12.5

Urban Design Practice

Subject	Study Period Commencement:	Credit Points:
ABPL90305 Design Research	Semester 1	12.50
ABPL90120 Building Sustainability	September	12.50
ABPL90149 Contemporary Digital Practice	Semester 1	12.50
ABPL90263 Constructed Ecologies	Semester 1	12.50
ABPL90248 Design Assessment Skills	Not offered 2016	12.50
ABPL90167 Design Communications Workshop (P/G)	Semester 1	12.50
ABPL90049 Environmental Design	Semester 1	12.50
EVSC90015 Environmental Impact Assessment	Semester 1	12.50
ABPL90086 Environmental Systems	Semester 2	12.50
ABPL90025 Project Management in Practice	Semester 2	12.50
ABPL90304 Flexible Urban Modelling	Semester 2	12.50
ABPL90319 GIS In Planning, Design & Development	Semester 1	12.50
ABPL90123 Digital Design Applications	Semester 2	12.50
ABPL90304 Flexible Urban Modelling	Semester 2	12.50
MULT90005 Interdisciplinarity and the Environment	Semester 2	12.50
ABPL90272 Regenerating Sustainability	Semester 1	12.50
ABPL90354 Robin Boyd Studio	Not offered 2016	12.50
ABPL90009 Participation and Negotiation	July, November	12.5

Urban Planning Issues

Subject	Study Period Commencement:	Credit Points:
ABPL90135 Analytical Methods	Semester 1	12.50
ABPL90022 Healthy Communities	Semester 2	12.50
ABPL90040 International Property Development B	June	12.50
ABPL90065 Managing Global City Regions	Semester 2	12.50
ABPL90315 Urban Governance	Semester 2	12.50
ABPL90171 Regenerating Activity Centres	Not offered 2016	12.50
ENST90002 Social Impact Assessment and Evaluation	Semester 2	12.50
ABPL90266 Inclusive Cities	Semester 1	12.50
ABPL90131 Strategic Plan Making	Semester 2	12.50
MULT90004 Sustainability Governance and Leadership	March, July	12.50
ABPL90077 Transportation, Land Use and Urban Form	Semester 2	12.50
ABPL90132 Land Use and Urban Design	Semester 2	12.50
ABPL90281 Housing, Markets, Policy and Planning	Semester 2	12.50
ABPL90090 Public Transport Network Planning	Semester 1	12.50
MULT90004 Sustainability Governance and Leadership	March, July	12.50
ABPL90056 Sustainable Transport and Public Policy	Semester 1	12.50
ABPL90246 The Economies of Cities and Regions	Semester 1	12.50
ABPL90315 Urban Governance	Semester 2	12.50
FRST90025 Bushfire & Climate	March	12.50
EVSC90022 Bushfire Urban Planning	April	12.50
ABPL90366 Urban Informatics	September	12.5
ABPL90009 Participation and Negotiation	July, November	12.5
ABPL90055 Planning Asia Pacific Cities Studio	June	12.5

Entry Requirements:

- In order to be considered for entry, applicants must have completed:
 - # a minimum four-year professional degree or equivalent in the disciplines of the Melbourne School of Design with a weighted average mark of at least H3 (65%), or equivalent; and
 - # two years of documented relevant work experience, demonstrated in a portfolio/report submitted in accordance with the requirements of the Selection Committee.
 Meeting these requirements does not guarantee selection.
- In ranking applications, the Selection Committee will consider:
 - # prior academic performance; and
 - # the work experience, demonstrated in a portfolio/report.
- The Selection Committee may seek further information to clarify any aspect of an application in accordance with the **Student Application and Selection Procedure (<https://policy.unimelb.edu.au/MPF1034>)**.
- Applicants are required to satisfy the university's **English language requirements for postgraduate courses (<http://about.unimelb.edu.au/academicboard/resolutions>)**. For those applicants seeking to meet these requirements by one of the standard tests approved by

the Academic Board, **performance band 6.5** (<http://about.unimelb.edu.au/academicboard/resolutions>) is required.

Additional notes

The design portfolio of not more than eight A3 pages should focus on design work rather than, for example, life or still-life drawing skills. Applicants submitting work done in the context of employment should explain their role in the work produced with brief notes. Images and drawings presented in the portfolio should be reproduced at sufficient scale and resolution to be clearly readable. Elaborate formats that reduce the available page space for the design images should be avoided. It is most helpful to see a variety of kinds of drawings and images; free hand diagrams, computer images, two-dimensional (plans, sections, elevations) and three-dimensional studies, photographs of physical models.

Reports should be in electronic format and no more than 10 x A4 pages. They should include a CV plus illustrate work(s) undertaken in the context of employment. Applicants should explain their role in the work(s) produced with brief notes, and if appropriate, provide images and official documentation.

For information about how to apply **click here** (<http://www.msd.unimelb.edu.au/how-to-apply/coursework/>) .

Core Participation Requirements:

The Melbourne School of Design is the graduate school of the Faculty of Architecture, Building and Planning. It offers professional entry programs in Architecture, Construction Management, Landscape Architecture, Property and Urban Planning. It offers specialist development programs in Property Valuation, Planning and Design and in Urban Design. The Melbourne School of Design welcomes applications from students with disabilities. It is the University and Faculty (Architecture, Building and Planning) policy to take reasonable steps to make reasonable adjustments so as to enable students' participation in degrees offered by the Melbourne School of Design (MSD). A candidate for degrees offered in the MSD must have abilities and skills which include the following: observation; communication; motor; conceptual, integrative, and quantitative; and behavioural and social. Adjustments can be provided to minimise the impact of a disability, however, particularly at Masters level, students need to be able to participate in programs in an independent manner and with regard to their safety and the safety of others. (i) Observation: Candidates must be able to read text, diagrams, maps, drawings and numerical data. Candidates should be able to observe details at a number of scales and to record useful observations of environmental contexts. (ii) Communication: Candidates should be able to communicate with fellow students, professional and academic staff, members of relevant professions and the public. Candidates must be able to communicate effectively and sensitively. Communication includes not only speech but also reading and writing, presenting one's own work in front of a large group, receiving and responding to feedback about one's own work in a public setting. Assessment in studio subjects will involve 'crits' where students present their own work in front of a large group, where they will receive and respond to feedback about their work in a public setting. Crits are an integral part of working in the industry and are an inherent requirement of the course. (iii) Motor: Candidates should have sufficient motor function to elicit information from environmental contexts. Off campus investigations may include visits to construction sites, urban, rural and/or remote environments. Candidates should have sufficient motor ability to prepare documentation of analytic texts, drawings and models of findings and for the preparation of proposals for environmental interventions via digital or other means. Candidates should have the ability to actively participate in appropriate site and/or design studio-based activities. (iv) Intellectual-Conceptual, Integrative and Quantitative Abilities: These abilities include measurement, calculation, reasoning, analysis, synthesis and, importantly, the ability to interpret results of such work. Problem resolution, the critical skill demanded of graduates, requires all of these intellectual abilities. In addition, given the disciplines pursued in the MSD, candidates should be able to comprehend three-dimensional relationships and to understand the spatial relationships in environmental structures of a wide range of scales –from smaller than the individual through individual buildings and urban spaces to large geographic areas. Further, graduate study entails learning to master one's own abilities and skills and to deploy them strategically. This requires further developing skills in both reflective and reflexive thinking and being able to practice these skills. (v) Behavioural and Social Attributes: A candidate must possess behavioural and social attributes that enable them to participate in a complex learning environment. Students are required to take responsibility for their own participation and learning. They also contribute to the learning of other students in collaborative learning environments, demonstrating interpersonal skills and an understanding of the needs of other students. Assessment may include the outcomes of tasks completed in collaboration with other students. Assessment in studio subjects will involve 'crits' where students present their own work in front of a large group, where they will receive and respond to feedback about their work in a public setting. Crits are an integral part of working in the industry and are an inherent requirement of the course. Students who feel a disability will prevent them

	from meeting the above academic requirements are encouraged to contact the Disability Liaison Unit.
Graduate Attributes:	Refer to University of Melbourne graduate attributes located at http://www.unimelb.edu.au/about/attributes.html
Notes:	<p>Students in this program may be eligible to undertake final subject assessment if they:</p> <ul style="list-style-type: none"># are in the final semester of their enrolment (not the last 50 points of the course); and# fail* a single subject worth up to 12.5 points with a final result of 40 - 49%. <p>* Receive an N or NH grade, except where that NH grade was awarded due to failure to participate in a component of assessment.</p>
