Subject Overview:	This subject provides students with clinical experience of music therapy. Placements will be in special education and nursing home settings under the guidance of a registered music therapist. The placement will include a graded introduction to the assessment of client needs, the development of program plans and the provision of music therapy interventions. Students will have both observational and participatory experiences of working with clients and evaluating and measuring benefit from the intervention. Tutorials will develop students' understanding of professional practice and develop therapeutic skills for practice.						
Learning Outcomes:	On completion of this subject, students should be able to: # Adapt learned music therapy skills to various client populations;						

	<ul style="list-style-type: none"> # Identify and apply appropriate ethical standards of practice; # Access research literature using IT resources and print journals; # Work as an informed team-member within the multidisciplinary team in special education and clinical settings; and # Construct a clinical report using accepted research guidelines.
Assessment:	A written case study assignment of 3,000 words; End-of-semester examination period (60%) 20 day Clinical Placement (Practical) assessed by written report from clinical training supervisor. Students must pass this assessment to pass the subject; End-of-semester examination period (30% and hurdle) 5-7min class presentatio; Starting week 6 (on campus students). OR as part of the mid-semester intensive study days on-campus (blended learning students); (10%) 100% attendance is expected. Less than 80% attendance at classes will result in a fail; Throughout semester (hurdle)
Prescribed Texts:	Wheeler, B. L., Shultis, C. L. & Polen, D. W. (2005). Clinical Training Guide for the Student Music Therapist. Gilsum, NH: Barcelona Publishers.
