Subject Overview:	This subject is designed to promote an understanding of the theoretical aspects of Neonatal nursing to support safe practice in caring for neonatal patients. Students will explore the impact of hospitalisation on neonates and their families, and understand assessment of the neonatal patient and common neonatal conditions responsible for preterm delivery and care of the sick neonate in hospital. In particular this subject will focus on nutritional requirements, fluid and electrolyte maintenance of the neonate, neonatal respiratory illness, neonatal care and principles of growth and development, which underpin accurate assessment of the newborn and infant Interventions initiated by nurses at a beginning level of practice will be described in terms of the research evidence underpinning practice as well as the technical and scientific knowledge that is a pre-requisite for skill development.						
Learning Outcomes:	<ol style="list-style-type: none"> 1. Students will be expected to be able to demonstrate their beginning specialty nursing practice through; 2. An understanding of the theoretical content covered within the subject to develop new knowledge that supports safe practice as a beginning specialty nurse in Neonates; 3. The ability to understand and evaluate specialised interventions as described in the subject content to provide a foundation for participating in the delivery of care at the beginning level of Neonatal nursing practice; 						

	<p>4. The capacity to use skills in problem-solving, critical thinking, rational inquiry and self-directed learning to apply knowledge learnt in the theoretical component of the subject to beginning level neonatal nursing clinical practice;</p> <p>5. An understanding of the changing knowledge base in the specialist area; and</p> <p>6. The ability to apply scientific knowledge to understand skills and techniques applicable to the specialist area</p>
Assessment:	Written assignment (1000 words) Week 5 - 20% Written assignment (2000 words) Week 10 - 30% 4 Closed Book tests (Weeks 4, 7, 9, 12) - 50%
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of the subject students should have developed the following generic skills of the Melbourne graduate and graduate coursework student:</p> <ol style="list-style-type: none"> 1. a capacity to articulate their knowledge and understanding in written modes of communication; 2. a capacity to manage competing demands on time, including self-directed project work. 3. An ability to evaluate and synthesize the research and professional literature in this discipline.
