

POPH90149 Biostatistics Research Project - S

Credit Points:	12.5									
Level:	9 (Graduate/Postgraduate)									
Dates & Locations:	2016, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus. Semester 2, Parkville - Taught on campus.									
Time Commitment:	Contact Hours: Independent study with supervision Total Time Commitment: 170 hours									
Prerequisites:	<p>Minimum of 4 subjects including the 2 subjects listed below.</p> <p># MAST90102 Linear Regression OR POPH90120 Linear Models</p> <p># MAST90101 Introduction to Statistical Computing OR POPH90018 Data Management & Statistical Computing</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>MAST90102 Linear Regression</td> <td>Semester 2</td> <td>12.5</td> </tr> <tr> <td>MAST90101 Introduction to Statistical Computing</td> <td>Semester 1</td> <td>12.5</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	MAST90102 Linear Regression	Semester 2	12.5	MAST90101 Introduction to Statistical Computing	Semester 1	12.5
Subject	Study Period Commencement:	Credit Points:								
MAST90102 Linear Regression	Semester 2	12.5								
MAST90101 Introduction to Statistical Computing	Semester 1	12.5								
Corequisites:	None									
Recommended Background Knowledge:	None									
Non Allowed Subjects:	None									
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>

Subject Overview:	The student will provide evidence of having met this goal by presenting a minor dissertation made up of a preface (describing the context in which their project was conducted and a reflection on what they have learned, how it has drawn upon, integrated and built upon subjects offered previously in the course and increased their confidence and competency in professional practice) and two project reports.
Learning Outcomes:	The aim of this subject is that the student gains practical experience, usually in a workplace setting, in the application of knowledge and skills learnt during the coursework of the Master of Biostatistics program, under supervision of an experienced biostatistician.
Assessment:	Portfolio or minor dissertation (approximately 5,000 words) to be marked by two examiners. Due at the end of the semester assessment period.
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Links to further information:	http://www.mspgh.unimelb.edu.au
Notes:	This subject is not available in the Master of Public Health.
Related Course(s):	Master of Biostatistics
