Coordinator:	Prof Michael Saling
Contact:	enquiry-psych@unimelb.edu.au Melbourne School of Psychological Sciences Currently enrolled students: # General information: https://ask.unimelb.edu.au # Email: enquiries-STEM@unimelb.edu.au Future students: # Further information: http://www.psych.unimelb.edu.au/study/professional-masters-programs (http://www.psych.unimelb.edu.au/study/professional-masters-programs) # Email: http://www.psych.unimelb.edu.au/contact-us-0
Subject Overview:	To guide students in the development of an applied research project cognate to their area of professional training, in accordance with the current APAC standard that "the project must be designed so that each student is required to undertake all of the steps involved in conducting an empirical investigation or enquiry". The project can take a number of forms, including an experimental single case study, critical review and meta-analysis, critical review and secondary data analysis, a laboratory-based empirical research study, prospective clinical research, or, in the case of PhD graduates enrolled in the Master of Psychology, an article suitable for submission to a peer-reviewed scientific journal of international standing.
Learning Outcomes:	In this subject students will: # select a thesis topic in consultation with academic staff; # conduct a review of the appropriate literature; # present a written thesis proposal and present it orally in a departmental forum.

Assessment:	In this subject student will: Prepare literature review of no more than 3000 words Prepare a research proposal of no more than 1500 words Present the proposal in a departmental forum, and respond to comments As regards (2), the proposal should be in the form of an argument containing a critical review of the appropriate research literature, a set of specific research aims, and a method for achieving those aims. A departmental forum will be convened for the purpose of presenting the proposal before the supervisor and other invited members of the academic staff. Presentation and response to comments is the basis for continued progress in the thesis and subsequent enrolment in the thesis subject. Students must present a thesis proposal by the end of the second semester in which they are enrolled in this subject.
Prescribed Texts:	None
Recommended Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
