Subject Overview:	<p>This is the subject where creative and technical knowledge and experience gained over the previous two years is tested and consolidated in a practical environment. Through negotiation involving career planning, students are assigned a project. The students will be given project guidelines and parameters that pertain to their role and the scope of their project. The student could be supervised and mentored by both academic and professional staff during this process. Regular tutorials will be held to ensure the student's needs are met and this project will conclude with a feedback session which would enable to students to give considered responses to their learning outcomes.</p>								
Learning Outcomes:	<p>This subject will give the students a better understanding of all the skills required to complete a project brief within the parameters and deadlines provided.</p>								
Assessment:	<p>Project Role (PBL) Practical assignment on an allocated project (2800 words or equivalent). End of semester. 60% A self reflective written paper (equivalent 400 words). End of semester 20% Journal A – draft progress journal (400 words equivalent). Mid semester 10% Journal B – final progress journal (400 words equivalent). End of semester 10% Peer Assessment Complete all forms of the peer assessment process as required. At the conclusion of the project. Hurdle requirement. Hurdle requirements Students must attend 80% of all scheduled classes and attempt all elements of assessment to be eligible for a pass in this subject.</p>								
Prescribed Texts:	None								
Breadth Options:	This subject is not available as a breadth subject.								

Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
